<i>How to use this book</i>	ix
1 Basic biology – overview	1
Definitions	1
Cell biology	1
Basic tissues	3
Organs and systems	11
Disease processes	12
Immunity	15
Anatomical nomenclature	17
2 Cardiovascular system	20
The heart – gross anatomy	20
The heart – microscopic anatomy	23
The cardiac cycle	23
Blood vessels – functions	25
Blood vessels – microscopic anatomy	25
Blood – composition and functions	29
CVS medical conditions	34
Blood cell disorders	36
CVS medications	37
3 Respiratory system	40
The thoracic cavity – gross anatomy	40
The respiratory system – gross anatomy	42
Upper respiratory tract – microscopic anatomy	43
Lower respiratory tract – microscopic anatomy	44
Alveoli – microscopic anatomy	44
Gaseous exchange mechanism	45
Breathing mechanism	47
Respiratory medical conditions	49
Respiratory medications	51
4 Digestive system	53
The pharynx – gross anatomy	53
The stomach – gross anatomy	57
The stomach – microscopic anatomy	57

Vomiting	60
The small intestines – gross anatomy	60
The small intestines – microscopic anatomy	60
The large intestines – gross anatomy	61
The large intestines – microscopic anatomy	63
Accessory digestive organs	63
Gastrointestinal medical conditions	68
Gastrointestinal medications	73
5 Nervous system	75
Types of nerves	75
The brain and spinal cord – gross anatomy	76
The brain – microscopic anatomy	79
Information transmission by nerves	80
Nervous system medical conditions	84
Nervous system medications	86
6 Oral embryology and histology	88
Definitions	88
Overview of general embryo development	88
Oral embryology – overview	92
Developmental disturbances affecting	
Lip and palate	98
Developmental disturbances affecting teeth	99
Oral histology – oral mucosa	103
Histology of the taste buds and taste sensation	105
7 Skull and oral anatomy	107
Skull anatomy – overview	107
Anatomy of the cranium	107
Anatomy of the face	111
Oral anatomy	112
Muscles	123
Nerve supply to the oral cavity	130
Blood supply to the head and neck region	138
8 Tooth anatomy	142
The tooth – gross anatomy	142
The tooth – microscopic anatomy and histology	143
Dental anatomical nomenclature	148
Tooth morphology and function	149
9 Periodontal anatomy	158
Cementum – histology	158
Periodontal ligament – histology	159
Alveolar bone – histology	161

Gingivae – histology	163
Junctional tissues – histology	163
Periodontium and disease	165
10 Salivary glands	167
Major salivary glands – gross anatomy	167
Major salivary glands – microscopic anatomy	168
Functions of saliva	170
Disorders of the salivary glands	170
<i>Index</i>	175
