CHAPTER 1	
Health Education, Health Promotion, and Health: What Do These Definitions Have to Do with Nursing?	1
<i>Bonnie Raingruber</i>	
Objectives	1
Introduction	1
Health Education Versus Health Promotion	2
Definitions of Health Promotion	6
Medical Model and World Health Organization Definitions of Health	7
Critiques of Definitions of Health	9
The Relationship Between Health, Health Promotion, and Illness Prevention	15
The Importance of a Trained Health Promotion Workforce	16
Discussion Questions	18
Check Your Understanding	18
What Do You Think?	20
References	22
CHAPTER 2	
The History of Health Promotion	25
<i>Bonnie Raingruber</i>	
Objectives	25
Introduction	25
Ancient Health Promotion Practices: Indian, Chinese, Egyptian, and Hebrew	25
Greek Antiquity	26

The Roman Empire	27
The Medieval Pandemics	27
Key Organizations, Conferences, Task Forces, and Documents That Have Influenced the Nature of Health Promotion in Modern Times	27
Summary of Historical Chronology	40
Six Phases in the Evolution of Primary Care/Prevention	41
The Role of Nursing Leaders in Health Promotion	42
Critique and Promise Associated with Nursing's Role in Health Promotion	44
What Are the Next Steps for Nursing?	45
What Will You Do?	45
Discussion Questions	45
Check Your Understanding: Exercise 1	46
Check Your Understanding: Exercise 2	47
What Do You Think?	49
References	49
CHAPTER 3	
Health Promotion Theories	53
<i>Bonnie Raingruber</i>	
Objectives	53
Why Should Health Promotion Be Theory-Based?	53
Behavioral Change Theories	56
An Intervention-Based Model: The Tannahill Model (1980)	62
Ecological Theories and Models	64
Planning Models	69
Communication Theories	70
Evaluation Models	72
Nursing Models and Theories	75
How Are Theories Constructed?	82
Chapter Exercises	86
Discussion Question One	86
Discussion Question Two	87
Discussion Question Three	87
Discussion Question Four	88
Discussion Question Five	88
Discussion Question Six	88
Check Your Understanding	88
What Do You Think?	90
References	91

CHAPTER 4**Genetic and Social Determinants of Health:
An Ecological Perspective 95***Michelle T. Dang*

Objectives	95
The Ecological Framework	97
The Stress–Diathesis Model	100
Genetic Determinants of Health and Gene–Environment Interactions	101
Gene Regulation and Mutations	102
Gene–Environment Interaction	103
Epigenetic Mechanisms	104
The Nurse’s Role	108
Social Determinants of Health	109
The Social Gradient of Health	110
Cultural Perspectives	112
Culture and the Social Gradient	114
Conclusion	115
Case Study	116
Discussion Questions	117
Check Your Understanding	118
What Do You Think?	118
References	118

CHAPTER 5**Health Disparities 123***Bonnie Raingruber*

Objectives	123
Introduction	123
Definitions of Health Disparities	125
How Disparities Are Determined	125
Types of Health Disparities	126
Factors Contributing to Health Disparities	137
Interventions for Minimizing Health Disparities	139
Cultural Competence Case Study	143
The Role of the Government and Other Entities in Decreasing Health Disparities	148
Research and Epidemiology: Why Diverse Populations Need to Be Counted	150
Future Trends and Associated Costs	153
Health Policy Options for Reducing Health Disparities	153

x Contents

Discussion Questions	155
Check Your Understanding	156
What Do You Think?	157
References	158

CHAPTER 6

Health Literacy 161

Bonnie Raingruber

Objectives	161
Introduction	161
Types of Health Literacy	164
Definitions of Health Literacy	166
Tools for Measuring Health Literacy	167
Health Literacy Needs Within Immigrant Populations	171
Health Literacy Issues Involving Children	171
Ways of Improving Health Literacy	172
Case Studies	178
Discussion Questions	180
Check Your Understanding: Exercise One	181
Check Your Understanding: Exercise Two	182
Check Your Understanding: Exercise Three	182
What Do You Think?	183
References	184

CHAPTER 7

**Artistic, Creative, and Aesthetic Approaches
to Health Promotion 187**

Bonnie Raingruber

Objectives	187
Introduction	187
Educating Healthcare Practitioners	188
Narrative Strategies and Storytelling	189
Reading and Writing Poetry	193
Art and Art Therapy	195
Photo-Voice	198
Soap Operas	201
Cartoons	202
Music	204
Dance	205
Theater	206

The Importance of an Aesthetic Environment for Healing	208
Nursing: The Aesthetic Art of Knowing	210
Discussion Questions	210
Check Your Understanding: Exercise One	211
Check Your Understanding: Exercise Two	211
What Do You Think?	212
References	213
CHAPTER 8	
Rural Health Promotion	217
<i>Alexa Colgrove Curtis</i>	
Objectives	217
The Future of Rural Health	217
Defining the Rural Community	218
Rural Community Culture and Health Promotion	220
Rural Health Priorities	226
Maternal and Child Health Promotion	228
Rural Adolescent Health Promotion	244
Issues of Adult and Older Adult Rural Health Promotion	258
Conclusion	267
Discussion Questions	268
Check Your Understanding	268
What Do You Think?	269
References	270
CHAPTER 9	
Nursing Informatics	285
<i>Bonnie Raingruber and Amy Zausch</i>	
Objectives	285
Introduction	285
Nursing and Informatics	286
Electronic Health Records	287
Health Insurance Portability and Accountability Act	291
Telehealth and Medical Homes	293
Virtual Reality and Avatars	297
Simulation and Virtual Patients	298
Interactive Games and Health Promotion	299
e-Health and Health Promotion	301
Electronic Self-Care Education Materials	304

Use of Technological Devices to Promote Health	307
Advantages and Disadvantages of Using Technology for Health Promotion	310
Conclusion	311
Discussion Questions	313
Check Your Understanding: Exercise One	315
Check Your Understanding: Exercise Two	315
Check Your Understanding: Exercise Three	316
Check Your Understanding: Exercise Four	316
What Do You Think?	317
References	318

CHAPTER 10

Evaluation, Research, and Measurement in Health Promotion Practice	323
<i>Bonnie Raingruber</i>	
Objectives	323
Introduction	324
Health Promotion Evaluation Principles	326
Types of Evaluation	327
Research and Evaluation Designs	329
Evaluation Criteria for Health Promotion Research	335
The RE-AIM Framework for Evaluating Health Promotion Programs	335
The European Community Health Promotion Indicator Development Model	336
Performance Indicators	337
Pay-for-Performance Evaluation	337
Cost-Effectiveness Analysis	337
A Case Study: Would QALY Calculation Help or Hinder Provision of Care for Sara?	339
Logic Models	344
Electronic Methods of Intervention and Evaluation	346
Selecting Health Promotion Measures	347
Common Categories That Are Examined in Health Promotion Research	347
Reliability, Validity, Utility, Appropriateness, Responsiveness, Precision, Interpretability, Acceptability, and Feasibility of Standardized Instruments	353

Effect Size	354
Objective Measures	355
Self-Report Measures	356
Generic Measures vs. Disease-Specific Measures	356
A Summary of Select Health Promotion Scales	357
Discussion Questions	366
Check Your Understanding: Exercise One	367
Check Your Understanding: Exercise Two	367
Check Your Understanding: Exercise Three	368
What Do You Think?	369
References	370

CHAPTER 11

Entrepreneurship and Health Promotion	375
<i>Bonnie Raingruber</i>	
Objectives	375
Definitions of Entrepreneurship	375
Social Entrepreneurship and Intrapreneurship	377
The Advantages and Challenges Associated with Running a Small Business	378
The Characteristics of a Successful Entrepreneur	380
Examples of Health Promotion Practices That Nurses Have Created	381
Types of Business Structures	382
Creating a Business Plan	383
Hiring and Supervising Staff	384
Billing for Services	385
Marketing and Other Business-Related Decisions	386
Malpractice and Malpractice Insurance	387
Agencies That Provide Help to Individuals Setting Up a Business	388
Discussion Questions	389
Check Your Understanding: Exercise One	389
Check Your Understanding: Exercise Two	390
Check Your Understanding: Exercise Three	391
Check Your Understanding: Exercise Four	392
What Do You Think?	392
References	393

CHAPTER 12

Health Promotion Policy 395

Bonnie Raingruber

Objectives 395

Introduction 395

Health Policy and Health Promotion Policy 396

Historical Accomplishments 397

Barriers to Involvement of Nursing in Health Policy 397

Factors Influencing Health Policy and Healthcare Reform 398

The Patient Protection and Affordable Care Act 400

Electronic Medical Records and Patient-Centered
Outcomes Evaluation 401

The Patient-Centered Outcomes Research Institute 402

Medical Homes: A Component of Integrated Health Policy 403

Allocating Health Care: The Question of Rationing,
Cost-Utility Analysis, and Practice Guidelines
as Ways of Controlling Cost 404

Consumer Involvement 406

The Role of Nursing in Health Policy Work 408

Discussion Questions 409

Check Your Understanding: Exercise One 410

Check Your Understanding: Exercise Two 410

Check Your Understanding: Exercise Three 411

What Do You Think? 411

References 412
