Introduction	1
<i>Part 1: The Basics</i>	5
<hr/>	
Questions 1–12 provide background information for understanding autism, covering such topics as:	
▪ What is autism?	
▪ What is the prognosis for children with autism?	
<i>Part 2: Diagnosing Autism</i>	37
<hr/>	
Questions 13–21 describe the symptoms of autism and discuss how autism is diagnosed:	
▪ Are there risk factors for autism?	
▪ What are some symptoms a parent should look for?	
▪ How do doctors diagnose autism?	
<i>Part 3: Autism Crisis</i>	63
<hr/>	
Questions 22–27 address the controversy over the reported rising incidence rate of autism, as well as the roles of vaccines and mercury:	
▪ What have studies found regarding vaccinations and autism?	
▪ What should a parent do about childhood immunizations?	
▪ Is mercury exposure dangerous?	
<i>Part 4: Autism Therapies and Treatments</i>	81
<hr/>	
Questions 28–35 describe the types of treatments available for autism and address the challenges of evaluating treatment options:	
▪ How will I know if a new therapy is right for my child?	
▪ Are there therapies besides ABA that are useful?	
<i>Part 5: Medication and the Treatment of Autism</i>	99
<hr/>	
Questions 36–43 cover common symptoms, side effects, and complications of autism and its treatment:	
▪ Are medications useful in treating the behavioral problems of autistic children?	
▪ What types of medications are used to treat autistic children?	
▪ How are anxiety and depression treated in an autistic person?	

<i>Part 6: Alternative Treatment for Autism</i>	115
Questions 44–50 discuss complementary and alternative treatments for autism:	
▪ Is there any harm in trying unproven treatments on my child?	
▪ Are dietary interventions helpful to autistic children?	
<i>Part 7: State and Federal Entitlement Programs</i>	131
Questions 51–59 address entitlement programs for disabled children:	
▪ What is SSI?	
▪ How does the government decide if a child is disabled?	
▪ What health care services are available to my child?	
<i>Part 8: Caring for Your Child After You're Gone</i>	147
Questions 60–69 discuss wills, trusts, and guardianship:	
▪ What is a will?	
▪ What is a special needs trust?	
▪ What is guardianship?	
<i>Part 9: Education of Autistic Children</i>	161
Questions 70–79 discuss educational resources available for autistic children:	
▪ What is the Individuals with Disabilities Education Act?	
▪ What is special education?	
▪ How do I choose the best special education program for my child?	
<i>Part 10: Living with Autism</i>	183
Questions 80–94 address the challenges of daily life with an autistic child:	
▪ What are some tips for parenting kids with autism?	
▪ How can I help my other children form a relationship with their autistic sibling?	
▪ How do I make my home safe for my autistic child?	
<i>Part 11: Stress</i>	219
Questions 95–99 discuss coping with the stress of autism:	
▪ What are some ways that parents can reduce their stress?	
▪ What can I do about my children's stress?	
<i>Appendix</i>	233
Question 100 is a list of web sites, organizations, and literature to help families of autistic people find additional resources on general and specific topics related to autism.
