Contents

Preface v

1. **Biology of Actinomycetes in the Rhizosphere of Nitrogen-Fixing Plants** 1
Mariana Solans and Gernot Vobis

2. **Cultural Factors Affecting Heavy Metals Removal by Actinobacteria** 26
Villegas Liliana Beatriz, Rodríguez Analia, Pereira Claudia Elizabeth and Abate, Carlos Mauricio

3. **Morphological Changes and Oxidative Stress in Actinobacteria during Removal of Heavy Metals** 44
Verónica L. Colin, Liliana B. Villegas, Claudia E. Pereira, María J. Amoroso and Carlos M. Abate

4. **Activation of Silent Genes in Actinobacteria by Exploiting Metal Stress** 56
Götz Haferburg and Erika Kothe

5. **Overview of Copper Resistance and Oxidative Stress Response in *Amycolatopsis tucumanensis*, a Useful Strain for Bioremediation** 74
José S. Dávila Costa, Erika Kothe, María J. Amoroso and Carlos M. Abate

6. **Multi-metal Bioremediation by Microbial Assisted Phytoremediation** 87
Martin Reinicke, Frank Schindler, Martin Roth and Erika Kothe

7. **Cooperative Activity of Actinobacteria and Plants in Soil Bioremediation Processes** 106
Mariana C. Atjian, Marta A. Polti, María J. Amoroso and Carlos M. Abate

8. **Cadmium Bioremediation by a Resistant *Streptomyces* Strain** 122
Siñeriz Louis Manuel, Kothe Erika and Abate Carlos Mauricio

9. *Streptomyces* from Soils Contaminated with Boron Compounds **136**
Norma Beatriz Moraga, María Julia Amoroso and Verónica Beatriz Rajal

10. Biodegradation of Pesticides by Actinobacteria and their Possible Application in Biobed Systems **165**
Gabriela Briceño, Leticia Pizzul and María Cristina Diez

11. Lindane Removal Using *Streptomyces* Strains and Maize (*Zeas mays*) Plants **192**
Analía Álvarez, Luciano Matías Yañez and María Julia Amoroso

12. Actinobacteria Consortia as Lindane Bioremediation Tool for Liquid and Soil Systems **206**
María S. Fuentes, Juliana M. Sáez, Claudia S. Benimeli and María J. Amoroso

13. Chlordane Biodegradation Under Aerobic Conditions by Actinobacteria Strains **227**
Natalia Bourguignon, Sergio A. Cuozzo, María S. Fuentes, Claudia S. Benimeli and María J. Amoroso

14. Metabolic Diversity and Flexibility for Hydrocarbon Biodegradation by *Rhodococcus* **241**
Héctor M. Alvarez and Roxana A. Silva

15. Cold-active Enzymes Bioprospecting from Actinobacteria Isolated from Beagle Channel, in South Extreme of Argentina **274**
Adriana E. Alvarenga, Claudia E. Pereira, Héctor A. Cristóbal and Carlos M. Abate

Index **285**

Color Plate Section **287**
