Introduction: From the Sciences of Meat to Critical Animal Studies	1
Sociology and animal studies	3
Political engagement? Burawoy's sociology and critical animal studies	6
Concepts for critical animal studies: Intersectionality and posthumanism	9
Animals as biotechnology	14
PART I – THE ANIMAL AND THE ETHICAL	19
1 Undomesticating the Ethical	21
Whose 'progress'?	22
Multiple ethics for 'animals'	25
Bioethics and nonhuman animals	33
2 Towards a Critical Bioethics	35
Bioethics and interdisciplinarity	36
Contesting the 'bio' in bioethics	40
The question of complicity	43
3 Thinking Across Species in the Ethics of 'Enhancement'	49
Opening up animal (bio)ethics: Smart mice, Schwarzenegger mice and fearless mice	51
The ethical bypass and the argument from precedent	53
Is there a slippery slope between animal and human 'enhancement'?	56
Towards the convergence of medicine and agriculture?	57
PART II – CAPITALIZING ON ANIMALS	61
4 Animal Biotechnology and Regulation	63
Regulation and advocacy	65
Historical context	66
Transatlantic developments in genomics, GM and cloning	70

5	Biopower and the Biotechnological Framing of the Animal Body	83
	Farmed animals and biopower	84
	Biotechnology and animal bodies: Metaphor no more?	90
6	Capitalizing on the Molecular Animal: Beyond Limits?	95
	A new species of capitalization?	95
	The knowledge economy as enabling master narrative	101
	Livestock genetics companies and the molecular turn	107
	PART III – CAPTURING SUSTAINABILITY IN THE GENOME	115
7	Mobilizing the Promise of Sustainability	117
	Biotechnologies as ‘promising’ practices	118
	Reinventing animal breeding: The molecularization of sustainability	122
	Global animal consumption and human health	127
	Global animal consumption and climate change	135
8	Searching for the ‘Win–Win’? Animal Genomics and ‘Welfare’	145
	Genetic selection, unintended consequences and welfare	148
	‘Welfare as health’ and the idea of the win–win	151
	Genomics and animal welfare	155
	Conclusion: From the ‘Livestock’ ‘Revolution’ to a Revolution in Human–Animal Relations	161
	Beyond the livestock revolution	161
	Reducing meat and dairy consumption	165
	Beyond efficiency	173
