

Contents

Chapter 1	Chocolate in Science, Nutrition and Therapy: An Historical Perspective	1
	<i>Philip K. Wilson</i>	
1.1	Introduction	1
1.2	Chocolate in Science	2
1.3	Chocolate as Nutrition	6
1.4	Chocolate as Therapy	12
	References	18
Chapter 2	Sustainable Cocoa Production: A Healthy Bean Supply	28
	<i>David A. Stuart</i>	
2.1	Introduction	28
2.2	Where Did Cocoa Originate?	29
2.3	Where Does Cocoa Grow Today?	30
2.4	Early Problems with Cocoa Production	32
2.4.1	Cocoa Demand in <i>Nuevo Espana</i>	32
2.4.2	Plant Disease	33
2.5	Recent Concerns with Cocoa Production	33
2.5.1	Collapse of Malaysian Plantation Cocoa	33
2.5.2	Witches' Broom Comes Back to American Cocoa	34
2.5.3	Pest Spread from Malaysia to Indonesia	35
2.5.4	Panama Conference	36
2.5.5	1998 View of Cocoa Sustainability	37
2.5.6	Sustainable Tree Crops Meeting in Washington, DC	38

2.5.7	Formation of the World Cocoa Foundation	39
2.5.8	Child Labor Incident Broadcast in the UK by Channel 4	39
2.5.9	Child Labor Surveys Planned in West Africa	40
2.5.10	“Slave Ship” is Reported in the Gulf Guinea	40
2.5.11	Child Labor Issues Undertaken by the US Congress: The Harkin–Engel Protocol	40
2.5.12	Child Labor Survey Results	41
2.5.13	Initiation of Child/Youth-directed Sustainability Projects	42
2.5.14	Other Child/Youth-directed Projects	42
2.5.15	WCF/US-AID Winrock Empowering Cocoa Households with Opportunities and Educational Solutions Program	43
2.5.16	The Cocoa Livelihoods Program	43
2.5.17	African Cocoa Initiative	44
2.5.18	The Payson Analysis of Child Trafficking in West Africa	44
2.5.19	Cocoa Communities Project	45
2.5.20	Individual Company-funded Efforts	46
2.5.21	Certification of the Cocoa Supply Chain	47
2.6	Current View of Cocoa Sustainability	49
2.6.1	The Progress and Future Directions	50
2.6.2	Relief from Onerous Cocoa Export Taxes	50
2.6.3	Develop and Apply Technology to Improve Cocoa Yields	51
	References	52

Chapter 3 Cacao Chemistry 56

W. Jeffrey Hurst

3.1	Flavanols	57
3.2	Methylxanthines	60
3.3	Biogenic Amines	61
3.4	Anandamide	61
3.5	Cocoa Butter	62
3.6	Non-flavanol Polyphenolics	63
3.7	Flavor Chemistry	64
	References	65

<i>Contents</i>	xi
Chapter 4 Applications of Genomics to the Improvement of Cacao	67
<i>Mark J. Guiltinan and Siela N. Maximova</i>	
4.1 Introduction	67
4.2 Cacao Genome Sequencing Project	69
4.2.1 History	69
4.2.2 Major Findings from the Cacao Genome Sequencing Projects	70
4.3 Recent Advances in Cacao Genome Analysis	71
4.3.1 Evolution, Domestication and Germplasm Collections	71
4.3.2 Breeding	73
4.3.3 Functional Genomics	74
4.3.4 Genomics of Cacao Health and Nutrition	75
4.3.5 Pathogens	76
4.4 The Future of Cacao Genomics	77
References	77
Chapter 5 Nutritional and Physiological Aspects of Chocolate	82
<i>Michelle A. Briggs, Yujin Lee, Jennifer Fleming, Christina Sponsky and Penny M. Kris-Etherton</i>	
5.1 Introduction	82
5.2 Nutrient Composition from Cacao to Chocolate	83
5.2.1 History of Cacao Consumption	83
5.2.2 Nutrient Composition of Cacao	84
5.3 Incorporating Cacao into the Diet	88
5.4 Physiological Functions of Cacao's Bioactive Compounds	89
5.4.1 Alkaloids	90
5.4.2 Opioids	91
5.4.3 Biogenic Amines	92
5.4.4 Endocannabinoids	92
5.4.5 Polyphenolics: Flavanols	92
5.4.6 Oxalates	93
5.5 Impact of Processing on the Nutrient/Bioactive Compound Content of Cacao Beans	94
5.5.1 Cacao Processing	94
5.5.2 Processing Changes in Nutrient and Bioactive Compounds	94
5.6 Summary	95
References	96

Chapter 6	Chocolate, the Digestive Tract and Diabetes	103
	<i>John W. Finley, Gabriella Crespo and Zuyin Li</i>	
6.1	Introduction to Cocoa Phenolics	103
6.2	Cocoa, Cocoa Liquor, Cocoa Powder and Chocolate	104
6.3	Bioavailability	105
6.4	Diabetes, Metabolic Syndrome and Glucose	118
6.5	Cocoa and the Prebiotic Environment	121
6.6	Cocoa, Blood Lipids and Diabetes	122
6.7	Cocoa, Anti-oxidation and Inflammation	124
	References	128
Chapter 7	Chocolate and Cardiovascular Health	132
	<i>Gabriela Gutiérrez-Salmeán, Eduardo Meaney, Guillermo Ceballos-Reyes and Francisco Villarreal</i>	
7.1	Introduction	132
7.2	Historical Remarks	133
7.3	Nutrition and Biochemistry as Related to Health and Medicine	134
7.4	Cardiometabolic Effects of CPs	135
7.4.1	Systemic Arterial Hypertension	136
7.4.2	Obesity	137
7.4.3	Glycemia and Insulin Resistance	138
7.4.4	Lipids and Atherosclerosis	139
7.4.5	Heart Failure	140
7.4.6	Stroke	141
7.5	Conclusions	142
	References	143
Chapter 8	Chocolate and Exercise Recovery	146
	<i>William R. Lunn and Allyson N. Derosier</i>	
8.1	Introduction	146
8.2	Exercise Recovery: Physiology and the Role of Nutrients	147
8.3	Chocolate Milk and Postexercise Recovery	149
8.4	Chocolate Bars and Cocoa	154
8.5	Chocolate and Postexercise Antioxidation	155
8.6	Chocolate and Postexercise Mood State	156
8.7	Conclusion	157
	References	157

<i>Contents</i>	xiii
Chapter 9 Chocolate, Cocoa and Women's Health	160
<i>Eleonora Brillo and Gian Carlo Di Renzo</i>	
9.1 Introduction	160
9.2 Health, Cocoa and Chocolate: Scientific Evidence	162
9.3 Female Mental Well-being	165
9.4 Cocoa and Reproduction	166
9.5 Cocoa and Pregnancy	168
9.6 Cocoa and Menopause	170
9.7 Cocoa and Beauty	170
9.8 Conclusions	171
References	172
Chapter 10 Chocolate and Skin Health: Effects of Dietary Cocoa Polyphenols	179
<i>Ulrike Heinrich and Wilhelm Stahl</i>	
10.1 Introduction	179
10.2 Skin Structure and Function	180
10.3 Skin and Nutrition	181
10.4 Cocoa Constituents with Dermal Activity	182
10.5 Topical Effects of Cocoa Products	183
10.6 Methods to Determine Skin Properties and Function	184
10.6.1 Photoprotection Against UV-induced Erythema	185
10.6.2 Cutaneous Blood Flow and Oxygen Saturation of Hemoglobin	185
10.6.3 Skin Structure by Ultrasound Measurements	185
10.6.4 Evaluation of the Skin Surface	186
10.6.5 Skin Hydration Measured by Corneometry	186
10.6.6 Skin Barrier Function Evaluated by the Measurement of TEWL	186
10.7 Human Studies on Systemic Effects of Cocoa	187
10.8 Compounds and Biochemical Mechanisms	191
10.8.1 Antioxidant Activity	191
10.8.2 UV Absorption: Inflammation	192
10.8.3 NO: Vasodilation	192
10.9 Conclusion	193
References	193

Chapter 11	Chocolate and Dental Health	196
	<i>Arman Sadeghpour</i>	
	11.1 Introduction	196
	11.2 Theobromine Chemical Structure, Properties and Toxicity	197
	11.3 Background Literature	200
	11.4 An Alternative to Fluoride?	203
	11.5 The Human Mouth	205
	11.6 Room for Innovation	206
	References	208
Epilogue		211
Appendix 1	Brief Historical Timeline of the Early Mentions of Chocolate in terms of Science, Nutrition and Medicine	218
Appendix 2	<i>Theobroma cacao</i>'s Reputed Medicinal Properties	222
Subject Index		231
