|---|-----|
| List of contributors | vii |
| Preface | xi |
| 1 Immunoallergic syndromes in interventional cardiology <i>Chourmouzos A Arampatzis, Giannis Kanonidis, and Patrick W Serruys</i> | 1 |
| 2 The kidney and percutaneous coronary interventions <i>Eugenia Nikolsky, Alexander Abizaid, and Roxana Mehran</i> | 9 |
| 3 Treatment of coronary artery disease in diabetic patients <i>Pilar Jiménez-Quevedo and Manel Sabaté Tenas</i> | 27 |
| 4 <i>Ad hoc</i> percutaneous coronary intervention <i>Francesco Saia, Federica Baldazzi, and Antonio Marzocchi</i> | 39 |
| 5 Dilemmas in non-ST elevation acute coronary syndromes <i>John A Ambrose, John T Coppola, and Henning Rasmussen</i> | 49 |
| 6 Patients with impaired hemostasis requiring cardiac catheterization and coronary intervention <i>Nicolai Mejevoi, Jean-Bernard Durand, and Marc Cohen</i> | 65 |
| 7 ST elevation acute myocardial infarction admitted in a distant location <i>Marc C Newell, David M Larson, and Timothy D Henry</i> | 77 |
| 8 Stable obstructive coronary disease and very low left ventricular function <i>Pedro de Araújo Gonçalves and Ricardo Seabra-Gomes</i> | 87 |
| 9 Multivessel disease in patients with acute myocardial infarction and high-risk unstable angina: culprit versus non-culprit intervention <i>Francesco Saia and David Antoniucci</i> | 95 |
| 10 Patients requiring cardiac and non-cardiac surgical procedures following percutaneous coronary interventions <i>Gary E Lane and David R Holmes Jr</i> | 111 |
| 11 Invasive treatment (percutaneous coronary intervention) of patients at high surgical risk <i>Douglass A Morrison</i> | 123 |
| 12 Percutaneous coronary intervention for patients with multivessel disease <i>Andrew TL Ong and Patrick W Serruys</i> | 135 |
| 13 Highly complex anatomical morphologies: percutaneous intervention versus bypass surgery <i>Leonardo C Clavijo and Augusto Pichard</i> | 153 |

vi Contents

| | | |
|----|--|-----|
| 14 | Advanced atherosclerotic diseases in multiple vascular bed sites <i>Luis A Guzman and Theodore Bass</i> | 163 |
| 15 | The intermediate coronary lesion <i>Pedro A Lemos, and Patrick W Serruys</i> | 185 |
| 16 | Percutaneous coronary intervention in the treatment of cardiogenic shock complicating acute myocardial infarction <i>Expedito Ribeiro, Pedro E Horta, Marcus N da Gama and Eulógio E Martinez</i> | 197 |
| 17 | The hypotensive patient after angioplasty: occult life-threatening percutaneous coronary intervention-related complications <i>Eulógio E Martinez, Marco A Perin, and Luiz J Kajita</i> | 203 |
| 18 | Percutaneous treatment for patients with end-stage aortic valve disease <i>Aamer H Jamali and Raj R Makkar</i> | 213 |
| 19 | Acute coronary dissection, occlusion, and perforation during percutaneous coronary intervention: surgical, percutaneous, or medical management <i>Goran Stankovic and Antonio Colombo</i> | 225 |
| 20 | Septal ablation for hypertrophic cardiomyopathy: to whom, when, and how? <i>Muzaffer Degertekin, Tugrul Okay, Fatih Bayrak, and Büilent Mutlu</i> | 233 |
| 21 | End-stage left ventricular failure: potential catheter-based therapeutic strategies <i>Emerson C Perin, Guilherme V Silva, and Pilar Jimenez-Quevedo</i> | 243 |
| 22 | Massive pulmonary embolism: the potential of catheter-based strategies <i>Phillip T Zeni Jr</i> | 253 |
| 23 | Large thrombus burden, slow-flow, no-reflow, and distal embolization <i>Jose A Silva and Christopher J White</i> | 261 |
| 24 | The role of interventional cardiology in functional coronary stenosis <i>Eulógio E Martinez, Nestor F Mercado, Pedro A Lemos, and Antonio Esteves Filho</i> | 283 |
| 25 | Complications of drug-eluting stents: thrombosis and restenosis <i>J Eduardo Sousa and Luiz Alberto Mattos</i> | 293 |
| 26 | Coronary interventions in patients with antiplatelet therapy resistance <i>Dominick J Angiolillo and Marco A Costa</i> | 305 |
| | Index | 329 |
