

Contents

1 Introduction: Evolution of Peripheral Lymphoid Organs	1
Péter Balogh	
Part I Common Themes in Lymphoid Organ Development	
2 Cellular Partners in the Embryonic Induction of Lymphoid Territories: Origins and Transcriptional Regulation	7
Péter Balogh	
3 Lymphotoxin/Tumour Necrosis Factor Family Members as Morphogenic Factors	15
Péter Balogh	
4 NF-κB Signalling and Lymphoid Tissue Organogenesis	25
Cecile Benezech, Emma Mader, Falk Weih, and Jorge H. Caamaño	
5 Homeostatic Chemokines, Cytokines and Their Receptors in Peripheral Lymphoid Organ Development	39
Péter Balogh	
Part II Development of Lymph Nodes in Humans and Rodents	
6 Developmental Relationship and Convergence Between the Formation of Lymphoid Organs and Lymphatic Vasculature	49
Péter Balogh	
7 Development and Structure of Lymph Nodes in Humans and Mice	59
Tom Cupedo, Mark C. Coles, and Henrique Veiga-Fernandes	

8	Development of Lymph Node Circulation and Homing Mechanisms	75
	Ann Ager, Mark C. Coles, and Jens V. Stein	
Part III Programmed and Nascent Gut-Associated Organized Lymphoid Tissues		
9	Structure and Development of Peyer's Patches in Humans and Mice	97
	Tom Cupedo, Mark C. Coles, and Henrique Veiga-Fernandes	
10	Cryptopatches and Isolated Lymphoid Follicles: Aspects of Development, Homeostasis and Function	107
	Heike Herbrand and Oliver Pabst	
Part IV Single Complexity: The Spleen		
11	Structural Evolution of the Spleen in Man and Mouse	121
	Péter Balogh and Árpád Lábadi	
12	Formation and Function of White Pulp Lymphocyte Rich Areas of Spleen	143
	Peter J.L. Lane, Fiona M. McConnell, and David Withers	
Part V Disassembling the Puzzle: Effect of Aging		
13	Age-Associated Decline in Peripheral Lymphoid Organ Functions	161
	Rania M. El Sayed, John G. Tew, and Andras K. Szakal	
	Index	175
