

# Contents

<b>1</b>	<b>Introduction</b> .....	1
<b>2</b>	<b>Natural Antimicrobials for Food Biopreservation</b> .....	3
2.1	Bacterial Antagonism as a Fundamental for Biopreservation.....	3
2.1.1	Antimicrobial Substances Derived from Bacterial Cell Metabolism.....	4
2.1.2	Antifungal Compounds.....	5
2.1.3	Bacteriocins.....	6
2.2	Antimicrobials from Animal Sources.....	8
2.3	Antimicrobials Derived from Plants.....	9
2.4	Bacteriophages.....	10
	References.....	11
<b>3</b>	<b>Application of Lactic Acid Bacteria and Their Bacteriocins for Food Biopreservation</b> .....	15
3.1	Bacteriocins and Bactericin-Producing Strains.....	15
3.2	Application of LAB Bacteriocins as Part of Hurdle Technology.....	17
	References.....	20
<b>4</b>	<b>Biopreservation of Meats and Meat Products</b> .....	23
4.1	Application of Bacteriocin Preparations.....	23
4.1.1	Raw Meats.....	23
4.1.2	Semi-processed and Cooked Meats.....	28
4.1.3	Fermented Meats.....	34
4.2	Application of Protective Cultures.....	35
4.2.1	Raw Meats.....	35
4.2.2	Semi-processed and Cooked Meats.....	37
4.2.3	Fermented Meats.....	38
	References.....	40

<b>5</b>	<b>Biopreservation of Milk and Dairy Products</b> .....	49
5.1	Application of Bacteriocin Preparations .....	49
5.1.1	Raw Milks .....	49
5.1.2	Processed Milk Products .....	53
5.2	Application of Bacteriocin-Producing Strains .....	56
5.2.1	Inhibition of Foodborne Pathogens .....	56
5.2.2	Inhibition of Bacteria Producing Gas-Blowing Defects in Cheeses .....	60
5.2.3	Improving Cheese Quality .....	61
	References .....	64
<b>6</b>	<b>Biopreservation of Egg Products</b> .....	71
6.1	Application of Bacteriocins .....	71
	References .....	73
<b>7</b>	<b>Biopreservation of Seafoods</b> .....	75
7.1	Application of Bacteriocin Preparations .....	75
7.1.1	Raw Seafoods .....	75
7.1.2	Ready-to-Eat Seafoods .....	77
7.2	Application of Bacteriocin-Producing Strains .....	83
7.3	Bacteriocin Cultures in Fermented Fish .....	86
	References .....	86
<b>8</b>	<b>Biopreservation of Vegetable Foods</b> .....	91
8.1	Application of Bacteriocins .....	91
8.1.1	Fresh Produce .....	91
8.1.2	Fruit Juices and Drinks .....	94
8.1.3	Ready-to-Eat, Processed, and Canned Vegetable Foods .....	97
8.1.4	Fermented Vegetables and Beverages .....	100
8.2	Bacteriocin-Producing Strains .....	102
	References .....	105
<b>9</b>	<b>Regulations</b> .....	113
9.1	The Challenge of Taking Bioprotection Strategies from the Lab to the Market .....	113
	References .....	117
