## A

### AMINO ACIDS

Specific Functions *M C G van de Poll, Y C Luiking, C H C Dejong and P B Soeters* 1

### ANEMIA

Iron-Deficiency Anemia *K J Schulze and M L Dreyfuss* 10

### ANTIOXIDANTS

Diet and Antioxidant Defense *I F F Benzie and J J Strain* 19

Intervention Studies *S Stanner* 31

Observational Studies *I F F Benzie* 40

### ASCORBIC ACID

Physiology, Dietary Sources and Requirements *D A Bender* 48

## B

BIOTIN *D M Mock* 55

## C

CAFFEINE *M J Arnaud* 65

CALCIUM *L H Allen and J E Kerstetter* 72

### CARBOHYDRATES

Requirements and Dietary Importance *C L Stylianopoulos* 78

Resistant Starch and Oligosaccharides *A Laurentin and C A Edwards* 84

### CAROTENOIDS

Chemistry, Sources and Physiology *B K Ishida and G E Bartley* 92

Epidemiology of Health Effects *S A Tanumihardjo and Z Yang* 101

CHOLINE AND PHOSPHATIDYLCHOLINE *X Zhu and S H Zeisel* 108

COPPER *X Xu, S Pin, J Shedlock and Z L Harris* 112

### CORONARY HEART DISEASE

Lipid Theory *D Kritchevsky* 117

Prevention *K Srinath Reddy* 123

**D**

## DIETARY FIBER

Physiological Effects and Effects on Absorption	<i>I T Johnson</i>	131
Potential Role in Etiology of Disease	<i>D L Topping and L Cobiac</i>	137
Role in Nutritional Management of Disease	<i>A R Leeds</i>	145

**F**

## FATTY ACIDS

Metabolism	<i>P A Watkins</i>	151
Monounsaturated	<i>P Kirk</i>	163
Omega-3 Polyunsaturated	<i>A P Simopoulos</i>	169
Omega-6 Polyunsaturated	<i>J M Hodgson, T A Mori and M L Wahlqvist</i>	184
Saturated	<i>R P Mensink and E H M Temme</i>	189
Trans Fatty Acids	<i>M J Sadler</i>	194
FISH	<i>A Ariño, J A Beltrán, A Herrera and P Roncalés</i>	202
FOLIC ACID	<i>J McPartlin</i>	211
FUNCTIONAL FOODS		
Health Effects and Clinical Applications	<i>L Galland</i>	219

**I**

## IODINE

Deficiency Disorders	<i>B S Hetzel</i>	227
Physiology, Dietary Sources and Requirements	<i>R Houston</i>	235

**L**

LYCOPENES AND RELATED COMPOUNDS	<i>C J Bates</i>	243
---------------------------------	------------------	-----

**M**

MAGNESIUM	<i>C Feillet-Coudray and Y Rayssiguier</i>	251
MANGANESE	<i>C L Keen, J L Ensunsa, B Lönnerdal and S Zidenberg-Cherr</i>	256
MICROBIOTA OF THE INTESTINE		
Probiotics	<i>M Gueimonde and S Salminen</i>	264

**N**

NIACIN	<i>C J Bates</i>	273
--------	------------------	-----

**P**

PANTOTHENIC ACID	<i>C J Bates</i>	281
PHOSPHORUS	<i>J J B Anderson</i>	286
PHYTOCHEMICALS		
Classification and Occurrence	<i>A Cassidy</i>	290
Epidemiological Factors	<i>H Wiseman</i>	297
POTASSIUM	<i>L J Appel</i>	309

<b>R</b>		
RIBOFLAVIN	<i>C J Bates</i>	313
<b>S</b>		
SELENIUM	<i>C J Bates</i>	323
SODIUM		
Physiology	<i>A R Michell</i>	330
Salt Intake and Health	<i>C P Sánchez-Castillo and W P T James</i>	335
SPORTS NUTRITION	<i>R J Maughan</i>	347
SUPPLEMENTATION		
Developed Countries	<i>M F Picciano and S S McDonald</i>	353
Developing Countries	<i>R Shrimpton</i>	361
Dietary Supplements	<i>S S Percival</i>	367
Role of Micronutrient Supplementation	<i>R D W Klemm</i>	372
<b>T</b>		
THIAMIN		
Beriberi	<i>D I Thurnham</i>	381
Physiology	<i>D I Thurnham</i>	390
<b>U</b>		
ULTRATRACE ELEMENTS	<i>F Nielsen</i>	397
<b>V</b>		
VEGETARIAN DIETS	<i>J Dwyer</i>	411
VITAMIN A		
Biochemistry and Physiological Role	<i>J L Napoli</i>	417
Deficiency and Interventions	<i>K P West Jr</i>	425
Physiology	<i>A C Ross</i>	437
VITAMIN B <sub>6</sub>	<i>D A Bender</i>	447
VITAMIN D		
Physiology, Dietary Sources and Requirements	<i>M F Holick</i>	456
Rickets and Osteomalacia	<i>J J B Anderson</i>	466
VITAMIN E		
Metabolism and Requirements	<i>M G Traber</i>	471
Physiology and Health Effects	<i>P A Morrissey and M Kiely</i>	477
VITAMIN K	<i>C J Bates</i>	486
<b>W</b>		
WHOLE GRAINS	<i>R Lang and S A Jebb</i>	495
<b>Z</b>		
ZINC		
Deficiency in Developing Countries, Intervention Studies	<i>C Hotz</i>	505
Physiology	<i>H C Freake</i>	513
INDEX		521
