## Section 1 Approach to Abnormal Blood Tests

- 1 Diagnostic Approach to Anaemia in Critical Care, 3  
*Stephen F. Hawkins and Quentin A. Hill*
- 2 Leukopenia, 9  
*Stephen F. Hawkins, Jecko Thachil and Quentin A. Hill*
- 3 Thrombocytopenia in the Intensive Care Unit, 12  
*Jecko Thachil*
- 4 High Blood Counts, 16  
*Quentin A. Hill*
- 5 The Abnormal Clotting Profile, 26  
*Jecko Thachil*
- 6 Understanding the Blood Film, 31  
*Stephen F. Hawkins and Quentin A. Hill*

## Section 2 Approach to Coagulation Problems

- 7 Venous Thromboembolism in Intensive Care, 39  
*Sarah A. Bennett and Roopen Arya*
- 8 Reversal and Monitoring of Anticoagulants, 45  
*Joost J. van Veen*
- 9 Disseminated Intravascular Coagulation, 52  
*Jecko Thachil*
- 10 Heparin-Induced Thrombocytopenia, 58  
*Jerrold H. Levy and Anne M. Winkler*
- 11 Thrombotic Microangiopathies, 62  
*Mari Thomas and Marie Scully*

- 12 Critical Care of Patients with a Congenital Bleeding Disorder, 69  
*Vanessa Martlew*

## Section 3 Approach to Transfusion Problems

- 13 Blood Components and Their Contents, 77  
*Shubha Allard*
- 14 Transfusion Reactions, 86  
*Therese A. Callaghan*
- 15 The Management of Non-traumatic Massive Haemorrhage, 93  
*Nicola S. Curry and Simon J. Stanworth*
- 16 Plasma Exchange, 100  
*Khaled El-Ghariani*

## Section 4 Approach to Red Cell Problems

- 17 Appropriate Haemoglobin in Intensive Care, 107  
*Jonathan Wallis and Stephen Wright*
- 18 Sickle Cell Disease and Thalassaemia in the Critical Care Setting, 112  
*Andrew Retter and Jo Howard*
- 19 Management of Patients Who Refuse Blood Transfusion, 118  
*Derek R. Norfolk and Fran Hartley*

## Section 5 Approach to White Cell Problems

- 20 Infectious Complications in the Immunosuppressed Patient, 125  
*Tim Collyns and Elankumaran Paramasivam*
- 21 Haematopoietic Stem Cell Transplantation (HSCT), 135  
*John Snowden and Stephen Webber*

- 22 Multiple Myeloma and Hyperviscosity Syndrome, 144

*Amin Rahemtulla and Joydeep Chakrabartty*

- 23 Palliative Care for the Patient with Haematological Malignancy in Intensive Care, 148

*Suzanne Kite*

### **Section 6 Admission to Intensive Care**

- 24 Haematological Malignancy Outside Intensive Care: Current Practice and Outcomes, 159

*Charlotte Kallmeyer*

- 25 Early Care of the Unstable Patient: Preventing Admission to the Intensive Care Unit, 165

*Andrew Breen*

- 26 Decisions to Intensify Treatment: Who Will Benefit from Intensive Care?, 171

*Quentin A. Hill and Peter A. Hampshire*

### **Section 7 Point-of-Care Testing**

- 27 The Relevance of Thromboelastography in Intensive Care Patients, 179

*Jon Bailey and Nicola S. Curry*

### **Section 8 Haematology Drugs in Critical Care**

- 28 Recombinant Activated Coagulation Factor VII (rFVIIa) in Critical Care, 187

*Leon Cloherty and Richard Wenstone*

- 29 The Use of Haemostatic Drugs in Post-operative Bleeding, 192

*Catharina Hartman and Nigel Webster*

- 30 Delivering Chemotherapy on Intensive Care, 196

*Arvind Arumainathan and Daniel Collins*

### **Section 9 Haematology in Paediatric and Neonatal Intensive Care**

- 31 Neonatal Anaemia, 207

*Michael Richards*

- 32 Haemolysis, 213

*Michael Richards*

- 33 Approach to Thrombocytopenia, 219

*Amrana Qureshi*

- 34 Blood Component Therapy in Children and Neonates, 224

*Anne Kelly, Simon J. Stanworth and Helen V. New*

### **Section 10 Haematological Emergencies**

- 35 Haematological Emergencies, 235

*Quentin A. Hill and Amin Rahemtulla*

Appendix A: Adult, Paediatric and Neonatal Haematology Reference Intervals, 243

*Quentin A. Hill*

Index, 249
