Introduction xi

Part 1: Fundamentals

1. Essential Neurovascular Anatomy 1
2. Diagnostic Cerebral Angiography 87
3. Spinal Angiography 117
4. Neuroendovascular Suite 135

Part 2: Interventional Techniques

5. Intracranial Aneurysm Treatment 143
6. Provocative Testing 179
7. Intracranial Embolization Procedures 205
8. Extracranial Embolization 259
9. Thrombolysis for Acute Ischemic Stroke 301
10. Extracranial Angioplasty and Stenting 347
11. Endovascular Treatment of Intracranial Stenosis and Vasospasm 365
12. Venous Procedures 381

Part 3: Specific Disease States

13. Intracranial Aneurysms and Subarachnoid Hemorrhage 433
14. Arteriovenous Malformations 511
15. Dural Arteriovenous Fistulas 539
16. Cavernous Malformations and Venous Angiomas 561
17. Acute Ischemic Stroke *by Agnieszka Anna Ardelt* 571
18. Extracranial Cerebrovascular Occlusive Disease 641
19. Intracranial Cerebrovascular Occlusive Disease 679
20. Spinal Vascular Lesions 701
21. Index 715
