Introduction	<i>xiii</i>

Part I: Fathoming the Mind of a Virus 1

Chapter 1 The Organizing Principle 3

Background	3
Four Problems Every Virus Must Solve	4
Consistent Solutions	5
Viral Pathogenesis	5
Fathoming the Mind of a Virus	5
GENERAL PRINCIPLES	6

Chapter 2 Host Defenses 7

Background	7
Barrier Defenses	8
The Innate Defense System	9
The Adaptive Immune System	10
GENERAL PRINCIPLES	12

Chapter 3 The Interferon Defense System 13

Background	13
Viral Detection	13
Interferon Function	15
Sequential Production of IFN- β and IFN- α	16
Viral Evasion of the Interferon Defense	17
GENERAL PRINCIPLES	18

Part II: The Bug Parade 19

Viruses We Inhale

Chapter 4 Influenza: A “Bait-and-Switch” Virus 21

Background.....	21
Influenza Virus Infection.....	21
Influenza Virus Reproduction.....	23
Evading Host Defenses.....	26
How Influenza Viruses Spread.....	27
Influenza-Associated Pathology.....	29
The Interviewer’s Summary.....	30
GENERAL PRINCIPLES	31
THOUGHT QUESTIONS	31

Chapter 5 Rhinovirus: A Virus That Surrenders 33

Background.....	33
A Rhinovirus Infection.....	33
Rhinovirus Reproduction.....	34
Evading Host Defenses.....	35
Viral Spread.....	36
Pathological Consequences of a Rhinoviral Infection.....	36
The Interviewer’s Summary.....	37
GENERAL PRINCIPLES	38
THOUGHT QUESTIONS	38

Chapter 6 Measles: A “Trojan Horse” Virus 39

Background.....	39
Measles Virus Infection.....	39
Measles Virus Reproduction.....	41
Evading Host Defenses.....	42
Measles Virus Transmission.....	43
The Pathological Consequences of a Measles Infection.....	44
The Interviewer’s Summary.....	45
GENERAL PRINCIPLES	46
THOUGHT QUESTIONS	46

REVIEW 1 A Comparison of Respiratory Viruses 47

Viruses We Eat

Chapter 7	Rotavirus: An Undercover Virus	49
	Background.....	49
	A Rotavirus Infection.....	50
	Viral Reproduction.....	50
	Evading Host Defenses.....	51
	How Rotavirus Spreads.....	52
	The Pathological Consequences of a Rotavirus Infection.....	53
	The Interviewer's Summary.....	53
	GENERAL PRINCIPLES	54
	THOUGHT QUESTIONS	54
Chapter 8	Adenovirus: A Virus With a Time Schedule	55
	Background.....	55
	An Enteric Adenovirus Infection.....	56
	Adenoviral Reproduction.....	57
	Replication of Adenoviral DNA.....	57
	How Does Adenovirus Evade Host Defenses?.....	59
	How Do Enteric Adenoviruses Spread?.....	61
	Pathogenic Consequences of an Enteric Adenovirus Infection.....	61
	The Interviewer's Summary.....	61
	GENERAL PRINCIPLES	63
	THOUGHT QUESTIONS	63
Chapter 9	Hepatitis A: A Virus That Detours	65
	Background.....	65
	How Does Hepatitis A Virus Infect Its Host?.....	65
	How Does Hepatitis A Virus Reproduce?.....	67
	How Does Hepatitis A Virus Evade Host Defenses?.....	67
	How Does Hepatitis A Virus Spread?.....	68
	Viral Pathogenesis.....	69
	The Interviewer's Summary.....	70
	GENERAL PRINCIPLES	70
	THOUGHT QUESTIONS	70
REVIEW 2	A Comparison of Enteric Viruses	71

*Viruses We Get From Mom***Chapter 10 Hepatitis B: A Decoy Virus 73**

Background.....	73
How Does Hepatitis B Virus Infect Its Target Cells?.....	73
How Does Hepatitis B Virus Reproduce?.....	74
How Does Hepatitis B Virus Evade Host Defenses?.....	75
How Does Hepatitis B Virus Spread?.....	76
Pathogenesis.....	77
The Interviewer's Summary.....	77
GENERAL PRINCIPLES	78
THOUGHT QUESTIONS	78

Chapter 11 Hepatitis C Virus: An Escape Artist 79

Background.....	79
A Hepatitis C Virus Infection.....	79
Viral Reproduction.....	80
Viral Evasion.....	80
How Does Hepatitis C Virus Spread?.....	81
Pathological Consequences of a Hepatitis C Infection.....	82
The Interviewer's Summary.....	82
GENERAL PRINCIPLES	83
THOUGHT QUESTIONS	83

Chapter 12 HTLV-I: A Tribal Virus 85

Background.....	85
An HTLV-I Infection.....	86
Viral Reproduction.....	86
How Does HTLV-I Evade Host Defenses?.....	87
How HTLV-I Spreads.....	88
Viral Pathogenesis.....	89
The Interviewer's Summary.....	89
GENERAL PRINCIPLES	90
THOUGHT QUESTIONS	90

REVIEW 3 A Comparison of Vertically Transmitted Viruses 91

Viruses We Get By Intimate Physical Contact

Chapter 13	HIV-1: An Urban Virus	93
	Background.....	93
	How Does HIV-1 Infect Its Hosts?.....	94
	Viral Reproduction.....	94
	Viral Evasion Tactics.....	95
	How HIV-1 Spreads.....	97
	The Pathological Consequences of an HIV-1 Infection.....	99
	The Interviewer’s Summary.....	100
	GENERAL PRINCIPLES	101
	THOUGHT QUESTIONS	101
Chapter 14	Herpes Simplex: A Virus That Hides	103
	Background.....	103
	Infection by Herpes Simplex Virus.....	104
	Viral Reproduction.....	104
	Evasion of Host Defenses.....	105
	Herpes Simplex Virus’ Strategy for Viral Spread.....	107
	Pathogenesis.....	108
	The Interviewer’s Summary.....	109
	GENERAL PRINCIPLES	110
	THOUGHT QUESTIONS	110
Chapter 15	Human Papillomavirus: A Very Quiet Virus	111
	Background.....	111
	Infection.....	112
	Viral Reproduction.....	113
	Viral Evasion Tactics.....	114
	Viral Spread.....	114
	HPV-Associated Pathology.....	115
	The Interviewer’s Summary.....	116
	GENERAL PRINCIPLES	117
	THOUGHT QUESTIONS	117
REVIEW 4	Viruses Which Establish Long-Term Infections	119

Part III: Beyond the Bug Parade 121

Chapter 16 Emerging Viruses 123

Background.....	123
Where Do Emerging Viruses Come From?.....	123
The Dangers of Emerging Viruses.....	126
GENERAL PRINCIPLES	129

Chapter 17 Virus-Associated Cancer 131

Background.....	131
Hepatitis B Virus.....	131
Human Papillomavirus.....	132
Hepatitis C Virus.....	134
HTLV-I.....	134
GENERAL PRINCIPLES	134

Chapter 18 Vaccines 135

Background.....	135
Memory Cells.....	135
Noninfectious Vaccines.....	135
Attenuated Virus Vaccines.....	136
Carrier Vaccines.....	137
Post-Infection Vaccines.....	137
Prospects for an Effective AIDS Vaccine.....	138
GENERAL PRINCIPLES	139
THOUGHT QUESTIONS	139

Chapter 19 Antiviral Drugs 141

Background.....	141
Targets for Antiviral Drugs.....	142
GENERAL PRINCIPLES	146

Summary Tables 147

Glossary 155

Index 157
