Preface	ix
Acknowledgements	xi
List of abbreviations	xiii
An explanation of the text	xvii
PART I: MICROBIOLOGY	1
1. Bacteria	3
1.1 Bacterial structure	3
1.2 Oxygen requirements	5
1.3 Bacterial classification and identification	5
1.4 Toxins	12
1.5 Gram-positive bacteria identification flowchart	15
1.6 Gram-positive bacteria	15
1.7 Gram-negative bacteria identification flowchart	29
1.8 Gram-negative bacteria	29
1.9 Poor/non-Gram-staining bacteria identification flowchart	43
1.10 Poor/non-Gram-staining bacteria	44
2. Viruses	51
2.1 Viral structure	51
2.2 Viral infection and replication	52
2.3 Diagnosis of viral infections	55
2.4 Virus identification flowchart	56
2.5 DNA viruses	56
2.6 RNA viruses	62
3. Fungi	70
3.1 Fungi classification	70
3.2 Diagnosis of fungal infections	71
3.3 Yeasts	71
3.4 Filamentous fungi	73
3.5 Atypical fungi	74
4. Protozoa	76
4.1 Protozoal classification	76
4.2 Amoeba	78
4.3 Coccidia (sporozoa)	79
4.4 Flagellates	80

5. Helminths	83
5.1 Helminth classification	83
5.2 Trematodes (flukes)	83
5.3 Nematodes (roundworms)	84
5.4 Cestodes (tapeworms)	88
6. Antibiotics	90
6.1 Antibiotic pharmacodynamics	90
6.2 Antibiotic resistance	101
PART II: INFECTIOUS DISEASES	103
7. Respiratory infections	105
7.1 Upper respiratory tract infections	105
7.2 Pneumonia	109
7.3 Other lower respiratory tract infections	115
7.4 Tuberculosis	117
8. Gastrointestinal infections	126
8.1 Infective gastroenteritis	126
8.2 Typhoid (enteric fever)	134
8.3 Infective hepatitis	136
9. Cardiovascular infections	142
9.1 Infective endocarditis	142
9.2 Rheumatic fever	146
10. Haematological infections and HIV	149
10.1 Malaria	149
10.2 Human immunodeficiency virus/acquired immune deficiency syndrome	153
11. Genitourinary infections	161
11.1 Urinary tract infection	161
11.2 Candidiasis (thrush)	163
11.3 Bacterial vaginosis	164
11.4 Chlamydia	164
11.5 Gonorrhoea	166
11.6 Genital warts	167
11.7 Genital herpes	167
11.8 Syphilis	168
11.9 Trichomoniasis	170
11.10 Toxic shock syndrome	171

12. Nervous system infections	173
12.1 Meningitis and encephalitis	173
12.2 Botulism	177
12.3 Tetanus	178
12.4 Poliomyelitis	178
13. Skin infections	180
13.1 Molluscum contagiosum	180
13.2 Folliculitis	180
13.3 Furuncle (boil) and carbuncle	181
13.4 Impetigo	182
13.5 Erysipelas and cellulitis	183
13.6 Necrotizing fasciitis	185
13.7 Gas gangrene (clostridial myonecrosis)	186
13.8 Wound infection	187
13.9 Shingles (zoster)	188
13.10 Scalded skin syndrome	189
13.11 Common childhood rashes	191
14. Bone and joint infections	192
14.1 Osteomyelitis	192
14.2 Septic arthritis	193
15. Congenital, neonatal and childhood infections	195
15.1 Congenital infections	195
15.2 Neonatal infections	195
15.3 Childhood infections	197
15.4 UK immunization timetable	202
16. History taking, septic screen and monitoring tests	204
16.1 History taking in infectious diseases	204
16.2 Septic screen and monitoring tests	205
16.3 Standard septic screen	205
16.4 Monitoring during sepsis	205
PART III: SELF-ASSESSMENT	209
17. Microbiology	211
Questions	211
Bacteria: EMQs	211
Bacteria: SBAs	214
Viruses: EMQs	215
Viruses: SBAs	216
Fungi, protozoa and helminths: SBAs	216
Antibiotics: SBAs	218

Answers	220
Bacteria: EMQs	220
Bacteria: SBAs	222
Viruses: EMQs	223
Fungi, protozoa and helminths: SBAs	225
Antibiotics: SBAs	226
18. Infectious diseases	228
Questions	228
Tuberculosis: SBAs	228
Gastrointestinal infections: SBAs	229
Viral hepatitis: SBAs	230
Haematological infections: SBAs	231
Genitourinary infections: EMQs	231
Genitourinary infections: SBAs	232
Paediatric infections: EMQs	233
Answers	234
Tuberculosis: SBAs	234
Gastrointestinal infections: SBAs	235
Viral hepatitis: SBAs	236
Haematological infections: SBAs	236
Genitourinary infections: EMQs	237
Genitourinary infections: SBAs	237
Paediatric infections: EMQs	238
APPENDIX: Notifiable diseases	240
Index	241
