Contents

1 Foundations for Nursing Education 3

Marilyn E. Parker/Savina O. Schoenhofer

Nursing as a Discipline 4
- Characteristics of Disciplines 4
- The Nature of Nursing as a Practiced Discipline, a Learned Profession 5

Nursing's Unique Focus 6
- Grand Nursing Theory 6
- Universal Unifying Concepts 7

Foundations of Curriculum Design for Nursing 8
- Essential Ways of Knowing Nursing 8

Tracing the History of Nursing Education Methods: Philosophy and Practice 8

Summary 10

2 Philosophical Foundations for Excellence in Teaching 15

Peggy L. Chinn

Who You Are and How You Teach 16

Patterns of Knowing or Fundamental Ideas That Form Nursing as a Discipline 20
- Empirics 20
- Ethics 21
- Personal Knowing 22
- Aesthetics 22
- Sociopolitical Knowing 23

Common Assumptions in Nursing Theory 23
- Health is Wholeness 24
- The Primacy of Human Uniqueness and Subjectivity 24
- Caring and Supportive Relationship 24

Putting It All Together 24

Noddings Philosophy of Caring Education 25
- Modeling 25
- Dialogue 25
- Practice in Caring 26
- Confirmation 27

Reflective Practice 28

Summary 28

3 The Art and Science of Nursing Education 33

Deborah C. Messecar

Carper's Ways of Knowing 34
- Empirics, Science of Nursing Education 34
- Aesthetics, the Art of Nursing 35
- Personal Knowing in Nursing 35
- Ethics, the Moral Knowledge in Nursing 36

Science of Nursing Education 37
- History 37
- Benefits and Limitations of the Nursing Process 37
- Nursing Process, Nursing Standardized Language and Evidence-Based Nursing 38
- Evidence-based Practice 41

Current Research and Initiatives 44
- Problem-Based Learning 44
- Conceptual Mapping 44
- Storytelling 45
- Questioning 45

Technology and Innovation in Nursing Education 45
- Problems with Technology Mediated Teaching 46
- Advantages of Technology Mediated Teaching Approaches 46
- Use of Multimedia and Simulation 46

Summary 47

4

NURSING AS A CAREER 55

Michele August-Brady

Dwindling Supply and Increasing Demand 56
Qualifications 57
Role of the Nurse Educator in the 21st Century 58
Emphasis on Student Learning 58
Promotion of Evidence-Based Practice 59
Emphasis on Authentic Student-Teacher Relationships 59
Challenges for the Nurse Educator in the 21st Century 60
Resources 62
Summary 62

5

CURRICULUM DEVELOPMENT 66

Susan Leddy

Overview of Stages of Curriculum Development 68
Faculty Communication Processes 69
Curriculum Development Stages and Activities 71
Summary 81

6

TAILORING TEACHING TO THE LEARNER 87

Vera Brancato

Assessing the Learner 88
Readiness to Learn 89
Developmental Assessment 90
Motivation 93
Emotional Intelligence 93
Multicultural Assessment of Students and Environments 94
Literacy Assessment 96
Strategies to Assist in Learning 96
Understanding, Assessing, and Using Learning Styles 97
Strategies to Enhance Motivation 99
Strategies to Enhance Literacy 100
Assessing Learning 101
Feedback on Learning 101
Summary 103

7

MANAGEMENT STRATEGIES IN THE EDUCATIONAL SETTING 109

Robert G. Mulligan

Classroom Management in Nursing Education Setting 110
The First Pillar: Instructional Strategies 110
Motivation 111
The Second Pillar: Proactive Planning to Facilitate Learning 112
COMP 112
Kounin 114
Physical Environment 114
Classroom Management Style 114
The Third Pillar: Dealing with Misbehavior 115
High-Need Students 117
Responding Appropriately to Levels of Misbehavior 119
The Fourth Pillar: Supporting Learning and Student Success 120
Teaching Responsibility 120
Teaching Students that They Are Capable 120
Developing a Professional Mentoring Relationship with Students 122
Communication Skills 122
The Dynamics of an Effective Teacher-Student Relationship 123
Emotional Objectivity 123
Summary 124

8

Using Technological in Nursing Education 129

Marilyn Stoner

Overview of Types of Technology 130
- Technology Used to Connect People and Services 130
- Technology Used to Create Learning Objectives 130

Technology: What Students and Faculty Need to Know 132
- Psychomotor Considerations 132
- Affective Considerations 133
- Cognitive Considerations 133
- Teaching with Technology 134

Using Technology to Produce Your Own Learning Assets 134
- Games: Crosswords and Other Word Puzzles, Question and Answer 135

Best Practices and Tips for Computer Users 137
- Managing Files and Folders 137
- Word Processing, Editing 137
- Keyboard Shortcuts 138
- Screenshots 138
- Templates and Macros 138
- Security and Privacy 138
- Searching the Internet 140
- Accessing and Securing Help 140

Technology Support of Higher Education 140
- Enrollment Management 141
- Library 141
- Learning Centers 141

Common Software Used in Teaching 141
- Electronic Mail 141
- Presentation Software 143
- Referencing and Formatting Software 143
- Faculty and Student Web Pages 143

Technological Quicksand—Intellectual Property 143
- Academic Dishonesty 145

Teaching Using Distance Technology and Distance Learning 145
- Distance Learning 145
- Interactivity 146
- Blogs 146
- Interactive Video Instruction 148
- Assessment Strategies 150

Other Supportive Methods of Instruction Using Technology 150
- Virtual Office Hours 150
- Chats, Test Preparation, Test Review 151

Summary 151

9

The Learning Resource Center 161

Pamela Roberts

Definition of the LRC 162

How Programs Integrate LRCs 162
- LRC Users 163

Creating an LRC: An Overview 163
- LRC Objectives 163
- LRC Space and Resource Considerations 164
- Time and Budget 164

Organization and Maintenance of the LRC 167
- Organizing of the Physical Setting 167
- Organizing of the People in the Laboratory 168
- Organizing of Activities That Occur in the Laboratory 170
- Organizing of the Laboratory Supplies 171
- Maintenance 172

Skills Competencies 172
- Testing 174

Psychomotor Skill Development 175

Self-Directed Learning 177

Documentation 178

Summary 178

10

Instructional Methods 183

Lucille A. Joel

Instructional Strategy 184
Domains of Learning 184
Learning Styles 184
Instructional Methods 185
Creating Set 185
Traditional Methods of Instruction 186
Lecture 186
Discussion/Questions and Answers As an Adjunct to Lecture 188
Group Discussion 189
Less Traditional Methods of Instruction 191
The Jigsaw 191
Debate 192
Journaling 192
Role Playing and Simulations 194
Case Method and Problem-Based Learning 197
Concept Mapping 201
Summary 205

11

Assessment and Evaluation Strategies 213

Mary E. Partusch

Program Assessment and Evaluation 214
NCLEX-RN Pass Rates 214
Follow-up Surveys and Interviews 215
Internal Feedback 215
Accreditation 216
Course Assessment 216
Outcome Blueprint 216
Methods of Course Evaluation 217
Examinations, Test Development, Types of Questions, and Examples 217
Multiple-Choice Testing 217
True-False 218
Short-Answer and Essay Questions 218
Learning Level and Level of Test Questions 219
Bloom's Taxonomy 219
Universally Designed Assessment Methods 220
Scoring and Determination of Item Difficulty and Discrimination 220
Other Evaluation Methods 222
Classroom Presentations 223
Observations 224
Concept Mapping 224
Rubrics for Grading and Assessment 224
Summary 226

12

Promoting Reflection in Groups of Diverse Nursing Students 231

Ruth Wittmann-Price

Philosophical Underpinnings 232
Emancipatory Education 233
Caring Curriculum 234
Methodologies Used to Promote Reflection through Dialogue 237
Summary 243

13

Management Strategies in Client Care Settings 251

Susan M.P. Scholtz

Clinical Education for Today's Nursing Student 252
Redesign Pre- and Post-Conferences 252
Clinical Preceptors 253
Student Perception of Clinical Education 253
Expressive Journaling 255
Reflective Journaling 257
Thematic Analysis 259
Summary 259

14

ROLE TRANSITION: USING PARTNERSHIPS AND COGNITIVE APPRENTICESHIP TO BECOME A NURSE EDUCATOR 265

Judy Murphy

Novice to Competent to Expert: A Progression 266
Achieving Competence 267
Developing Competence in Students 268
Developing Competence in Nurse Educators 268
Transition from Clinical to Expert 269
What Clinicians Bring to the Educator's Table 269
Cognitive Apprenticeship and Partnerships Ease Transition from Novice to Expert, Clinician to Educator 270
Setting Up a Partnership/ Apprenticeship 271
Preceptors, Mentors, Partners 272
Cognitive Apprenticeship Specifically 274
Summary 276

15

ACHIEVING EXCELLENCE IN NURSING EDUCATION: THE NATIONAL LEAGUE FOR NURSING PERSPECTIVE 283

Theresa M. Valiga and Mary Anne Rizzolo

The Current State of Affairs in Nursing Education 284
Transforming Nursing Education 285
Promoting Excellence 285
Innovation 289
Evidence-Based Nursing Education and the Science of Nursing Education 289
Technology in Nursing Education 290
Preparation for and Continued Development in the Faculty Role 291
Think Tank 291
Core Competencies of Nurse Educators 292
Summary 292

16

AACN SHAPING A FUTURE VISION FOR NURSING EDUCATION 299

Joan M. Stanley

Call for Change in Nursing Education 300
AACN Actions Shaping the Future of Nursing Education 302
Recent AACN Actions Affecting Baccalaureate Nursing Education 302
Recent AACN Actions Affecting Master's Nursing Education 302
Recent AACN Actions Affecting Doctoral Education in Nursing 302
The Clinical Nurse Leader and Future Master's Nursing Education 303
Specialty Nursing Practice and the Doctor of Nursing Practice 304
A New Model for Nursing Education 305
Educational Pathways 306
Nursing Curricula Interfaces 307
Preparation for faculty Roles in Academia 307
Summary 307
