I Patient Outcomes as an Accountability *Diane M. Doran and Dorothy Pringle* 1

Introduction	1
Framework	14
Methodology for Conducting the Literature Review	20
References	23

2 Functional Status *Diane M. Doran* 29

Introduction	29
Theoretical Background: Definition of the Concept.....	31
Conceptual Definition.....	34
Factors That Influence Functional Status	35
Issues in Assessing Functional Status	35
Evidence Concerning the Relationship Between Nursing and Patients' Functional Status Outcomes	38
Evidence Concerning Approaches to Measurement	61
Recommendations Necessary for Future Research	68
References	69

3 Self-Care *Souraya Sidani* 79

Introduction	79
Self-Care: A Concept Analysis and Definition	81
Empirical Evidence Linking Self-Care to Nursing.....	87

Instruments Measuring Self-Care.....	100
Issues in the Measurement of Self-Care	121
Conclusions and Recommendations for Practice and Research.....	123
References	124

4 Symptom Management 131

Souraya Sidani

Introduction	131
Symptom Experience: Conceptualization	132
Issues in Symptom Measurement	136
General Symptom Measures.....	138
Fatigue	143
Nausea and Vomiting	166
Dyspnea	174
Conclusions and Recommendations	188
References	190

5 Pain as a Symptom Outcome 201

Judy Watt-Watson and Michael McGillion

Introduction	201
Theoretical Background of the Outcome	203
Issues in the Assessment and Measurement of Pain	206
Evidence Concerning the Relationship Between Nursing and Pain as a Symptom Outcome	209
Evidence Concerning Approaches to Measurement	228
Recommendations and Directions for Future Research.....	233
References	234

6 Adverse Patient Outcomes 241

Peggy White, Linda McGillis Hall, and Michelle Lalonde

Introduction	241
Definition of the Concept of Adverse Patient Outcomes	241
Linking Adverse Patient Outcomes to Nursing.....	243
Factors That Influence Adverse Patient Outcomes	250
Relationships Between Nursing Structural Variables and Adverse Patient Outcomes	252
Issues with Nursing Research on Adverse Patient Outcomes	275

Emerging Themes in Adverse Patient Outcomes Research..... 278
 Conclusion 278
 References 279

7 Psychological Distress as a Nurse-Sensitive Outcome 285
Doris Howell

Introduction 285
 Background on Psychological Distress..... 286
 Conceptualization and Definitions of Psychological Distress..... 288
 Theoretical Background.....313
 Factors That Influence Adjustment and Psychological Distress315
 Sensitivity to Nursing Care.....317
 Issues in Assessment and Measurement of Psychological
 Distress..... 326
 Instruments Measuring Psychological Distress..... 328
 Conclusions and Recommendations for Future Practice
 and Research..... 343
 References 345

8 Patient Satisfaction as a Nurse-Sensitive Outcome 359
Heather K. Spence Laschinger, Stephanie Gilbert, and Lesley Smith

Introduction 359
 Theoretical Background: Definition of the Concept..... 362
 Approaches to Measurement of Patient Satisfaction
 with Nursing Care..... 368
 Issues in Measuring Patient Satisfaction 395
 Discussion and Recommendations 397
 References 400

9 Mortality Rate as a Nurse-Sensitive Outcome 409
Ann E. Tourangeau

Introduction 409
 Literature Search Strategy410
 Overview of Mortality Rate Research Literature..... 411
 Definitions of the Concept Mortality Rate 411
 Theoretical Perspectives: Relationship Between Mortality
 Rate, and Nursing Structures and Processes of Care 413

Overview of Empirical Evidence of Relationships Between Mortality Rates, and Nursing-Related Organizational Structures and Processes of Care.....	414
Measurement/Calculation of Mortality Rates.....	430
Data Issues in Mortality Rate Research.....	431
Recommendations and Directions for Future Research.....	433
References	434

IO Healthcare Utilization 439

Sean P. Clarke

Introduction	439
Theoretical Background: Definition of the Concept.....	441
Theoretical Background: Processes.....	441
Conceptual Definition.....	443
Controversies and Issues in Assessing Healthcare Utilization	444
Data Sources: Self-Reports and Secondary Data	446
Evidence Concerning Factors Influencing Healthcare Utilization	447
Evidence Concerning the Relationship Between Nursing and Healthcare Utilization: Nursing Structural Variables.....	458
Evidence Concerning the Relationship Between Nursing and Healthcare Utilization: Nursing Interventions.....	463
Recommendations and Directions for Future Research.....	477
References	478

II Nursing Minimum Data Sets 487

Manal Kleib, Anne Sales, Diane M. Doran, Claire Mallette, and Deborah White

Introduction	487
Nursing Minimum Data Sets: Historical Overview.....	488
NMDS Initiatives	489
Comparisons of Nursing Minimum Data Sets	503
Strengths and Limitations of Nursing Minimum Data Sets	504
International Minimum Data Set: iNMDS.....	505
Discussion	506
References	508

<i>Index</i>	513
