
CONTENTS

1	Introduction.....	1
1.1	The Mediterranean Diet and Its Past Influences	1
1.2	Mediterranean Populations and Their Changing Dietary Patterns.....	4
1.3	American Changes in Dietary Patterns and Origins.....	4
1.4	Conclusion	9
	References.....	15
2	Assessment of Life Cycle Factors Related to Diet and Obesity-Associated Disease.....	17
2.1	Prevention in Childhood: Stage 1.....	17
2.1.1	Eating Habits of Children and Adolescents in Relation to the Dietary Guidelines.....	18
2.1.2	Fostering Patterns of Preference Consistent with Healthier Diets in the Very Young.....	18
2.1.3	Parental Influences on Children’s Food Preferences and Patterns	19
2.1.3.1	Availability of Foods	19
2.1.3.2	Types of Child Feeding Practices	20
2.1.3.3	Parental Modeling of Eating Behavior.....	21
2.1.4	Parental Eating Habits Mirror Those in Their Young Children	21
2.1.5	Existing Family-Based Interventions.....	22
2.2	Remediation in Children and Adolescents: Stage 2	23
2.2.1	Family-Based Interventions in Older Children.....	23
2.3	Remediation in Adults: Stage 3.....	24
	References.....	26
3	Predictors of Maintained Behavior Change with Emphasis on Weight Loss.....	33
3.1	Extended Treatment	33
3.2	Skills Training	34
3.3	Food Provision.....	35

3.4	Monetary Incentives	37
3.5	Telephone Prompts and Counseling	37
3.6	Peer Support	37
3.7	Exercise	38
3.8	Multicomponent Maintenance Programs	39
	References.....	41
4	Lifestyle Change Factors Related to Lifecycle Stages 1, 2, and 3.....	45
4.1	Stage 1: Childhood and Parental Feeding Habits	45
4.1.1	Educational Dietary Intervention Aspects.....	46
4.1.1.1	Overview	46
4.1.1.2	Core Elements.....	46
4.1.1.3	Theoretical Model.....	46
4.1.2	Behavioral Change Aspects.....	47
4.1.2.1	Overview	47
4.1.2.2	Core Elements.....	47
4.1.2.3	Theoretical Model.....	48
4.1.3	Strategies Used to Change Parent/Child Feeding Practices — Contrasting Educational and Behavioral Change Aspects.....	49
4.1.4	Intervention Development	49
4.2	Stage 2: Remediation in Childhood and Adolescence	49
4.3	Stage 3: Remediation in Adults and the Elderly.....	52
	References.....	53
5	Motivational Interviewing for Childhood and Parental Feeding Habits: Stage 1.....	55
5.1	Parental Infant Feeding Practices Associated with Food Preferences.....	55
5.2	Evaluating a Child’s Eating Habits.....	56
5.3	Not-Ready-to-Change Counseling Session.....	57
5.4	Unsure-about-Change Counseling Sessions.....	61
5.5	Ready-to-Change Counseling Sessions	62
5.6	Summary.....	63
	References.....	63
6	Motivational Interviewing for Children and Adolescents: Stage 2.....	67
6.1	Changing Dietary Habits in Adolescents.....	67
6.2	Not-Ready-to-Change Counseling Session.....	69
6.3	Unsure-about-Change Counseling Sessions.....	72
6.4	Ready-to-Change Counseling Sessions	73
	References.....	74
7	Motivational Interviewing for Adults and the Elderly: Stage 3.....	77
7.1	Intervention Phase 1 (Not Ready to Change).....	80

7.2	Intervention Phase 2 (Unsure about Change)	81
7.3	Intervention Phase 3 (Ready to Change)	81
