

Detailed contents

1	Top 10 clinical problems	1
	Anemia and occult GI bleeding	2
	Anemia	2
	Increased red cell destruction: hemolysis	3
	Anemia in liver disease	4
	Iron deficiency anemia presumed due to occult GI blood loss	5
	Ascites	7
	Assessment of ascites	7
	Ascites: Management	9
	Chronic or recurrent abdominal pain	11
	Cirrhosis and Chronic liver disease	15
	Background	15
	Compensated cirrhosis	16
	Decompensated cirrhosis	17
	Constipation	19
	Evaluation	19
	Diagnostic approach and investigations	21
	Treatment considerations	23
	Acute diarrhea (less than 14 days)	26
	Classifying acute diarrhea	27
	Investigations	29
	Treatment	30
	Diarrhea in travelers	32
	Chronic diarrhea	34
	Definition	34
	Pathophysiology and causes	34
	History and examination	37
	Diagnostic tests	39
	Antidiarrheal therapy	41
	Dyspepsia and gastro-esophageal reflux	42
	Definitions and common causes	42
	Epidemiology	42
	When and how to investigate	42
	Starting treatment	43
	Managing gastro-esophageal reflux disease (GERD)	44
	Managing peptic ulcer disease	44
	Managing nonulcer dyspepsia	46
	The role of <i>Helicobacter</i> testing and eradication in managing dyspepsia	47
	Mouth and swallowing problems	48
	Problems with the mouth	48
	Problems with swallowing	49

Nausea and vomiting 52
 Definitions and neurophysiology 52
 Clues in reaching a diagnosis 52
 Approach to investigation 53
 Management 53
 Causes of nausea and vomiting 54

Recent onset jaundice 55
 Background 55
 Type of jaundice 55
 Clinical assessment 58
 Management 59

2	<p>Emergencies</p> <p>Acute abdominal pain 62 Clinical assessment 62 Investigations 64 Management 64</p> <p>Acute diarrhea 66 Management 67 Common mistakes and important points in early management 69 Complications 69</p> <p>Acute liver failure 70 Definition 70 Clinical syndrome 70 Making the diagnosis 72 Management 72 Prognosis and liver transplantation 74</p> <p>Acute lower gastrointestinal bleeding 75 Definition 75 Clinical presentation 75 Diagnosis 75 Management 75</p> <p>Acute upper gastrointestinal bleeding 77 Definitions 77 Initial assessment and management 78 Suspected nonvariceal acute upper GI bleed 81 Suspected acute variceal bleed 85</p> <p>Esophageal obstruction 88 Causes 88 Clinical features 88 Management 88</p> <p>Esophageal rupture 90 Causes 90 Diagnosis 90 Management 91</p>	61
---	---	----

Gastrointestinal foreign bodies 92
 Swallowed foreign bodies 92
 Colonic and rectal foreign bodies 92
 Special considerations 93

3 Upper gastrointestinal tract

3.1 Esophagus 95

Achalasia 96
 Barrett's esophagus 97
 Barrett's surveillance 98
 Boerhaave syndrome 98
 Caustic injury 99
 Chagas's disease 100
 Diaphragmatic hernia 101
 Drug-induced esophagitis 101
 Dysplasia 102
 Gastro-esophageal reflux (GERD) 103
 Hiatus hernia 103
 Mallory–Weiss syndrome 103
 Esophageal motility disorders 103
 Esophageal rings 105
 Esophageal stricture 105
 Esophageal tumors 106
 Esophagitis 110
 Los Angeles grading 110
 Pharyngeal pouch (“Zenker’s diverticulum”) 111
 Plummer–Vinson/Patterson–Kelly syndrome 111
 Pseudoachalasia 111
 Schatzki ring 111
 Tracheo-esophageal fistula (TEF) 112
 Variceal bleeding 112
 Video capsule endoscopy 112

3.2 Stomach 113

Achlorhydria 114
 Atrophic gastritis 114
 Bezoars 115
 Billroth 115
 Dieulafoy lesion 115
 Ectopic mucosa 115
 Gastrectomy/gastroenterostomy 116
 Gastric antral vascular ectasia (GAVE) 116
 Gastric cancer 117
 Gastric emptying 118
 Gastric polyps 120
 Gastric ulcers 120
 Gastrinoma (Zollinger–Ellison syndrome) 120

Gastritis 122
Helicobacter pylori (HP) 123
Intrinsic factor (IF) 125
MALT lymphoma 125
Ménétrier's disease 125
Nonsteroidal anti-inflammatory drugs (NSAIDs) and the GI tract 126
Nonulcer dyspepsia 127
Obesity surgery 128
Peptic ulceration 128
Pernicious anemia (PA) 132
Postgastrectomy syndromes 133
Proton pump inhibitors 134
Pyloric stenosis 134
Superior mesenteric artery syndrome 135
Zollinger–Ellison syndrome 135

3.3 Small intestine 137

Afferent loop syndrome 138
Ampullary cancer 138
Angiodysplasia 138
Aorto-enteric fistulae 139
Bacterial overgrowth 140
Bile acid malabsorption 141
Blind loop 142
Brush border 142
Celiac disease 143
Dumping syndrome 145
Duodenal diverticulum 145
Duodenal ulcer 146
Embolization 146
Fat malabsorption 146
GIST (gastrointestinal stromal tumors) 147
Hereditary hemorrhagic telangiectasia (HHT),
(Osler–Weber–Rendu syndrome) 147
Ileus 148
Intussusception 149
Jejunal diverticulum 149
Lactose intolerance 149
Lymphangiectasia 149
Lymphoma in GI tract 150
Meckel's diverticulum 152
Mesenteric venous thrombosis 152
Peutz–Jeghers syndrome 153
Protein-losing enteropathy 153
Roux-en-Y anastomosis 154
Short bowel syndrome 155
Tropical sprue 155
VIPoma 156

Acetaminophen overdose 158
Acquired immune deficiency syndrome 159
Acute fatty liver of pregnancy (AFLP) 159
Albumin (use in liver disease) 160
Alcoholic liver disease 160
Alpha-1-antitrypsin deficiency 163
Alpha-fetoprotein (AFP) 163
Ascites 163
Autoimmune hepatitis (AIH) 164
Bilirubin metabolism 165
Budd–Chiari syndrome (BCS) 166
Caroli’s disease 166
Child–Pugh score 167
Drug-induced hepatotoxicity 167
Dubin–Johnson syndrome 169
Fatty liver 170
Focal nodular hyperplasia (FNH) 170
Gilbert’s syndrome 171
HELLP syndrome 171
Hemangioma 172
Hemochromatosis 172
Hepatic drug metabolism 174
Hepatic encephalopathy 174
Hepatic granulomas 176
Hepatitis A 178
Hepatitis B 178
Hepatitis C 183
Hepatitis D virus (HDV) 188
Hepatitis E virus (HEV) 188
Hepatitis G virus (HGV) 189
Hepatocellular carcinoma (HCC) 189
Hepatorenal syndrome (HRS) 191
HIV and the liver 192
Hydatid disease 193
Intrahepatic cholestasis of pregnancy 194
Liver abscess 194
Liver function tests (LFTs) 196
Liver support devices 197
Liver transplantation 197
MELD score 201
Mirizzi’s syndrome 201
Nodular regenerative hyperplasia (NRH) 201
Nonalcoholic fatty liver disease (NAFLD) 201
Overlap syndromes 203
Portal hypertension 203
Portal vein thrombosis (PVT) 206
Primary biliary cirrhosis (PBC) 208
Primary sclerosing cholangitis (PSC) 209
Spontaneous bacterial peritonitis (SBP) 211

TPMT (thiopurine methyltransferase) 212
 Varices 212
 Wilson disease 213
 Zieve's syndrome 215

5 Pancreas and biliary tree

5.1 Pancreas 217

Acute pancreatitis (AP) 218
 Amylase 220
 Autoimmune pancreatitis 221
 Chronic pancreatitis 221
 Hereditary pancreatitis 223
 Islet cell tumors 223
 Pancreas divisum 223
 Pancreatic cancer 224
 Pancreatic cystic tumors 226
 Pancreatic endocrine tumors (PET) 229
 Pancreatic function tests 230
 Pancreatic insufficiency 231
 Pancreatic pseudocyst 232
 Pancreatic stents 233
 Pancreatitis 233
 Steatorrhea 234

5.2 Biliary tree 237

Biliary atresia 238
 Biliary bypass procedures 238
 Biliary reflux 239
 Biliary strictures 239
 Biliary tree variations 240
 Cholangiocarcinoma 240
 Cholangitis 241
 Cholecystectomy 242
 Cholecystitis 243
 Choledochal cyst 243
 Double duct sign 244
 Gallbladder cancer 244
 Gallbladder empyema 245
 Gallbladder polyps 245
 Gallstones 246
 Hemobilia 247
 Sphincter of Oddi dysfunction (SOD) 247

6 Colon and rectum

6.1 Colon 249

Adenoma-to-carcinoma hypothesis 250
 Antibiotic-associated diarrhea (AAD) 250

Appendix and appendicitis 251
 Carcinoembryonic antigen (CEA) 251
 Collagenous colitis 252
 Colonic cancer 252
 Colonic inertia 254
 Colonic polyps 255
 Colorectal cancer screening and surveillance 257
 Cowden's disease 260
 Crohn's disease 260
 Crohn's disease activity indices 267
 Diversion colitis 268
 Diverticular disease (diverticulosis, diverticulitis, and diverticular bleeding) 269
 Dukes staging system 271
 Familial adenomatous polyposis (FAP) 271
 Gardner's syndrome 273
 Hereditary nonpolyposis colon cancer (HNPCC) 273
 Hereditary polyposis 275
 Irritable bowel syndrome (IBS) 275
 Juvenile polyps and polyposis 280
 Laxative abuse 281
 Megacolon 281
 Melanosis coli 282
 Microscopic colitis 282
 Ogilvie's syndrome (acute pseudo-obstruction) 283
 Perianal Crohn's disease 284
 Pneumatosis intestinalis 285
 Polyposis syndromes 286
 Pseudomembranous colitis 286
 Pseudo-obstruction 286
 TNM classification 287
 Toxic megacolon 287
 Tumor staging 288
 Turcot's syndrome 288
 Typhlitis 289
 Ulcerative colitis 289
 Volvulus 295

6.2 Rectum 297

Anal cancer 298
 Anal fissure 298
 Anorectal abscesses 299
 Anorectal fistulae 300
 Fecal incontinence 300
 Hemorrhoids 303
 Hirschsprung's disease 304
 Pouchitis 304
 Pruritus ani 306
 Rectal cancer 306
 Rectal prolapse 307

Rectocele 308
Solitary rectal ulcer syndrome 308

7	Intestinal infections	309
	Actinomycosis 310	
	Adenovirus 310	
	Amoebiasis 310	
	Bilharzia 311	
	Blastocystis 311	
	Botulism 311	
	Campylobacter 312	
	Candida 312	
	Cestodes 313	
	Cholera 313	
	<i>Clonorchis</i> infection 314	
	Clostridial infections of the GI tract 314	
	Coccidia 316	
	Cryptosporidium 318	
	Cytomegalovirus (CMV) 318	
	Dysentery 318	
	<i>Escherichia coli</i> 318	
	Flukes (flatworms, trematodes) 319	
	Giardiasis 320	
	Helminth infection 320	
	Herpes simplex 320	
	Herpes zoster 321	
	Hookworms 321	
	Leptospirosis 322	
	<i>Listeria monocytogenes</i> 322	
	Microsporidia 323	
	Nematodes 323	
	Parasitic infection 323	
	<i>Pseudomonas</i> 323	
	Protozoa 323	
	Rotavirus 323	
	Roundworm (nematode) infection 324	
	<i>Salmonella</i> 325	
	Sarcoidosis 326	
	Schistosomiasis 326	
	Shigella 328	
	<i>Strongyloides</i> 328	
	Tapeworms (cestodes) 329	
	Traveler's diarrhea 329	
	Trematodes 329	
	Trypanosomiasis 330	
	Tuberculosis and the GI tract 330	
	Weil's disease 331	
	Whipworm 331	
	<i>Yersinia</i> 331	

8	Intestinal manifestations of systemic disease	333
	Acromegaly and GI tract 334	
	Acute intermittent porphyria 334	
	Alcohol dependency 334	
	Alcohol withdrawal and delirium tremens (DT) 336	
	Amyloidosis 338	
	Angio-edema 338	
	Anorexia nervosa 339	
	Autonomic neuropathy 339	
	Behçet's syndrome 340	
	Beriberi 340	
	Body mass index (BMI) 341	
	Bulimia 341	
	Carcinoid 341	
	Chronic granulomatous disease (CGD) 343	
	Cronkite–Canada syndrome 344	
	Cystic fibrosis (CF) and the GI tract 344	
	Dermatitis herpetiformis 345	
	Diabetes and the GI tract 345	
	Down syndrome and GI tract 346	
	Ehlers–Danlos disease 346	
	Elderly and the GI tract 347	
	Endometriosis affecting the GI tract 348	
	Eosinophilia and the GI tract 348	
	Eosinophilic gastroenteritis 349	
	Erythema nodosum (EN) 350	
	Fabry's disease 350	
	Familial mediterranean fever 351	
	Felty's syndrome 351	
	Graft versus host disease (GvHD) 351	
	Gut hormone profile 352	
	Hemolytic–uremic syndrome (HUS) 353	
	Henoch–Schönlein purpura 353	
	HIV and the gut 353	
	Hypogammaglobulinemia 356	
	Immunoglobulin deficiency 356	
	Intestinal ischemia 356	
	Kayser–Fleischer rings 357	
	Multiple endocrine neoplasia (MEN) 358	
	Neuroendocrine tumors (NET) 358	
	Osler–Weber–Rendu syndrome 359	
	Osteoporosis and metabolic bone disease 359	
	Oxalate stones 361	
	Parkinson's disease and the GI tract 361	
	Pellagra 362	
	Polyarteritis nodosa (PAN) and the GI tract 362	
	Porphyrias 362	
	Pyoderma gangrenosum 364	
	Radiation damage to the GI tract 364	

xx DETAILED CONTENTS

Refeeding syndrome 366
Reiter's syndrome 366
Rheumatoid arthritis (RA) and the GI tract 367
Scleroderma and the GI tract 367
Sickle cell anemia (SCA) 368
Sjögren's/sicca syndrome 369
Still's disease 369
Systemic lupus erythematosus (SLE) and the GI tract 369
Systemic mastocytosis 370
Tylosis 370
Vasculitis and the GI tract 371
Veno-occlusive disease (VOD) 371
Wernicke's encephalopathy (WE) 372
Whipple's disease 372
Vaccine use in the immunocompromised 373

9 Procedures and nutrition

9.1 Procedures 375

Anorectal manometry 376
Antibiotic prophylaxis in endoscopy 376
Antireflux procedures 377
Argon plasma coagulation (APC) 378
Balloon dilatation 378
Barium contrast studies 378
Biofeedback 379
Bone densitometry 380
Bougies 380
Bowel preparation 380
Breath tests 382
Capsule endoscopy 382
Chromoendoscopy 383
Colonic transit studies 383
Colonoscopy 383
CT pneumocolon ("virtual colonoscopy") 384
CT (computed tomography) scanning 385
Defecography studies 385
Dye spraying 386
Electrocoagulation 386
Endoscopic complications 387
Endoscopic dilatation 390
Endoscopic hemostasis 391
Endoscopic retrograde cholangiopancreatography (ERCP) 392
Endoscopic ultrasound (EUS) 393
Endoscopy in anticoagulated patients 393
Enteroclysis 395
Enteroscopy 396
Extracorporeal shock-wave lithotripsy (ESWL) 396
Fecal occult blood tests (FOBT) 397

Gastrograffin 398
 Gastrostomy 398
 Heater probe 398
 Hepatobiliary scintigraphy (e.g., HIDA scan) 398
 Hydrogen breath test 398
 Ileal pouch–anal anastomosis (IPAA) 399
 Ileostomy 400
 Liver biopsy (LBx) 401
 Manometry 403
 Esophageal manometry and motility studies 403
 Esophageal pH monitoring 404
 Nasogastric tubes 405
 Paracentesis (large volume) 405
 Percutaneous endoscopic gastrostomy (PEG) 406
 Photodynamic therapy (PDT) 408
 Positron emission tomography (PET) scanning 408
 Schilling test 409
 Sedation for endoscopy 410
 Sengstaken–Blakemore tube (SBT) 411
 Seton suture 412
 Stool microscopy 412
 TIPSS (transjugular intrahepatic portosystemic shunt) 413
 Ultrasound 414
 Urea breath tests 415
 Whipple’s procedure 415

9.2 Nutrition 417

B vitamins 418
 Cobalamin (vitamin B12) 418
 Elemental diets 419
 Enteral feeding 419
 Exclusion diets 420
 Fiber 420
 Folic acid (vitamin B9) 421
 Food allergy (food intolerance) 421
 Iron 422
 Oral rehydration solutions (ORS) 423
 Parenteral nutrition 424
 Short-chain fatty acids (SCFA) 426
 Vitamins 426

Appendix 429

BMI calculator 430
