Preoperative assessment and preparation for anaesthesia

1	General considerations	1
2	Consent and anaesthetic risk	17
3	Cardiovascular disease	45
4	Perioperative arrhythmias	81
5	Respiratory disease	97
6	Renal disease	127
7	Hepatic disease	139
8	Endocrine and metabolic disease	155
9	Bone, joint, and connective tissue disorders	191
10	Haematological disorders	203
11	Neurological and muscular disorders	239
12	Psychiatric disorders and drugs	277
13	Uncommon conditions	295

Anaesthesia for surgical specialties

14	Cardiac surgery	331
15	Thoracic surgery	365
16	Neurosurgery	403
17	Vascular surgery	441
18	Orthopaedic surgery	465
19	Plastic surgery	513
20	General surgery	535

21	Liver transplantation and resection	569
22	Endocrine surgery	579
23	Urological surgery	591
24	Gynaecological surgery	613
25	Ear, nose, and throat surgery	631
26	Maxillofacial and dental surgery	667
27	Ophthalmic surgery	679
28	Day surgery	701
29	Laser surgery	709
30	Anaesthesia for CT, MRI and Interventional Radiology	715
31	Anaesthesia for the elderly	727
Obstetric anaesthesia and analgesia		
32	Obstetric anaesthesia and analgesia	735
Paediatric and neonatal anaesthesia		
33	Paediatric and neonatal anaesthesia	799
Anaesthetic emergencies		
34	The critically ill patient	861
35	Anaesthetic emergencies	907
Practical anaesthesia		
36	Airway assessment and management	969
37	Practical anaesthesia	1005
38	Blood products and fluid therapy	1065

Acute pain

39	Acute pain	1089
40	Postoperative nausea and vomiting	1113

Regional anaesthesia

41	Regional anaesthesia	1119
----	----------------------	------

Drug formulary and data

42	Drug formulary	1193
43	Anaesthesia data	1259
