## Section 1 **General introduction to paediatric intensive care**

1	An introduction to paediatric intensive care	3
2	Epidemiology and outcome of paediatric intensive care	13
3	Paediatric resuscitation and critical care outreach	19
4	Clinical assessment	39
5	Physics and clinical measurement	45
6	Vascular access and clinical monitoring	61
7	Applied physiology and bedside assessment	103

## Section 2 **Organ system support and related practical procedures**

8	Airway management and ventilation	129
9	Anaesthesia	175
10	Analgesia and sedation	185
11	Circulatory support	199
12	Cardiopulmonary bypass	221
13	Managing fluids, electrolytes, and acid–base	229
14	Renal replacement therapies	257
15	Nutrition	275
16	Heat-related illness	289
17	Prescribing	295

18	Transport and retrieval	309
19	Imaging in paediatric intensive care	331
<b>Section 3 Specific specialties</b>		
20	Cardiac disorders and postoperative care	347
21	Respiratory disease	407
22	Neurocritical care	451
23	Trauma and burns	493
24	Infection control policies and PICU	531
25	Immunity and infection	535
26	Sepsis and multiple organ failure	569
27	Laboratory investigations for infectious disease	585
28	Antimicrobial use on the PICU	589
29	Neonatology	603
30	Gastroenterology and hepatology	625
31	Nephrology	645
32	Diabetes and endocrinology	669
33	Metabolic disorders	693
34	Haematology	709
35	Brain death, organ donation, and transplantation	723
36	Poisoning	741
37	Technology-dependent children	755
38	Genetic syndromes	761
39	Paediatric intensive care medicine in the developing world	779

**Section 4 Compassionate and family-orientated care**

40	The child and family in PICU	<b>821</b>
41	Aspects of the law in paediatric intensive care	<b>833</b>
42	Clinical governance, audit, and risk management	<b>843</b>
43	Child protection	<b>849</b>
