

CONTENTS

Preface vii

Acknowledgments xi

Reviewers and Contributors xii

PART I Foundations

- 1 **Introduction to Medication Monitoring by the Rehabilitation Therapist** 2
Principles of Pharmacotherapy 3 • Generic Medications 10 • Side Effects of Medications 10 • Special Populations and Medication Risk 11 • Patient Education and Medication Use 11 • Safe and Effective Use of Medications 13 • Summary 13
- 2 **Medication's Effects on the Nervous System, Muscle Function, and Cognition** 14
Central Nervous System 14 • Peripheral Nervous System 23 • Medication-Induced Movement Disorders 24 • Summary 27
- 3 **Nutrition in the Rehabilitation Patient** 28
Physiology of Nutrition 28 • Incidence, Etiology, and Pathophysiology of Malnutrition 29 • Nutritional Screening, Assessment, and Monitoring 30 • Rehabilitation Considerations 35 • Summary 51

PART II Medications Used to Treat Psychiatric and Cognitive Disorders

- 4 **Medications Used to Treat Depression and Bipolar Disorder** 54
Depression 54 • Drug Interactions With Antidepressants 68 • Bipolar Disorder 73 • Summary 79
- 5 **Medications Used to Treat Psychosis and Schizophrenia** 80
Psychosis 80 • Agitation 86 • Side Effects Associated With Antipsychotic Agents 87 • Drug Interactions 92 • Role of the Rehabilitation Therapist in Promoting Medication Adherence 95 • Rehabilitation Considerations 95 • Summary 96
- 6 **Medications Used to Treat Delirium, Dementia, and Alzheimer's Disease** 97
Reversible Cognitive Impairment Caused by Medications 97 • Reversible Cognitive Impairment Caused by Medication-Associated Delirium 100 • Irreversible Cognitive Impairment (Dementia) 103 • Summary 120
- 7 **Medications Used to Treat Anxiety, Anxiety Disorders, and Insomnia** 121
Anxiety Disorders 121 • Insomnia 128 • Summary 133

PART III Medications Used to Treat Neurologic and Movement Disorders

- 8 **Medications Used to Treat Seizure Disorders** 136
Classification of Seizures 136 • Seizures, Convulsions, and Epilepsy 136 • Summary 148
- 9 **Medications Used to Treat Spasticity and Muscle Spasm** 149
Spasticity 149 • Muscle Spasm 159 • Summary 160
- 10 **Medications Used to Treat Parkinson's Disease** 161
Parkinson's Disease 161 • Summary 184
- 11 **Medications Used to Treat Amyotrophic Lateral Sclerosis, Multiple Sclerosis, and Myasthenia Gravis** 185
Amyotrophic Lateral Sclerosis 185 • Multiple Sclerosis 190 • Myasthenia Gravis 200 • Summary 204
- 12 **Medications Used to Treat Other Movement Disorders** 205
Essential Tremor 205 • Subcortical Dementia 206 • Huntington's Disease 212 • Wilson's Disease 215 • Restless-Leg Syndrome 217 • Medication-Induced Movement Disorders 218 • Summary 223

PART IV Medications Used to Treat Pain and Substance-Use Disorders

- 13 **Medications Used to Treat Pain** 226
Classification of Pain 226 • Summary 252
- 14 **Medications Used to Treat Chronic Pain Syndromes** 253
Migraine Headache 253 • Fibromyalgia 254 • Trigeminal Neuralgia 258 • Cancer Pain 259 • Amputation Pain 265 • Central Pain Syndromes 268 • Complex Regional Pain Syndrome 273 • Summary 275
- 15 **Medications Used to Treat Substance-Use Disorders** 276
Definition of Substance-Use Disorder 276 • Alcohol-Abuse Disorders 276 • Drug-Abuse Disorders 284 • Summary 289

PART V Medications Used to Treat Disorders of the Immune System

- 16 **Medications Used to Treat Infections** 292
Classification of Bacteria 292 • Urinary Tract Infections 295 • Skin and Soft-Tissue Infections 301 • Surgical Wound Infections 305 • Vascular Ulcers and Pressure Ulcers 313 • Diabetic Foot Infections 316 • Pneumonia 317 • Antibiotic-Associated Diarrhea 320 • Control of Infection in the Rehabilitation Center 328 • Summary 329

- 17 **Medications Used to Treat Osteoarthritis, Gout, and Rheumatoid Arthritis** 330
 Osteoarthritis 330 • Gout 337 • Rheumatoid Arthritis 340 • Related Rheumatic Diseases 348 • Summary 353
- 18 **Medications Used to Treat Cancer** 354
 Definition of Cancer 354 • Summary 395

PART VI **Medications Used to Treat Chronic Disease**

- 19 **Medications Used to Treat Hypertension, Congestive Heart Failure, and Cardiac Arrhythmias** 398
 Cardiovascular Disease 398 • Hypertension 402 • Congestive Heart Failure 417 • Cardiac Arrhythmias 423 • Summary 430
- 20 **Medications Used to Treat Peripheral Artery Disease, Stroke, and Coronary Heart Disease** 431
 Atherosclerosis 431 • Peripheral Artery Disease 432 • Stroke 435 • Coronary Artery Disease 451 • Summary 459
- 21 **Medications Used to Treat Diabetes** 460
 Diabetes Mellitus 460 • Diabetic Neuropathy 471 • Summary 477
- 22 **Medications Used to Treat Respiratory Disease** 481
 Respiratory System 481 • Chronic Obstructive Pulmonary Disease 481 • Emphysema 482 • Chronic Bronchitis 483 • Asthma 484 • Rehabilitation Considerations for Respiratory Disease 484 • Medication Therapy for Respiratory Disease 489 • Summary 501
- 23 **Medications Used to Treat Thyroid Disease, Parathyroid Disease, and Osteoporosis** 502
 Thyroid Disease 502 • Hyperthyroidism 505 • Hypothyroidism 511 • Osteoporosis 514 • Paget's Disease 520 • Hyperparathyroidism 521 • Hypoparathyroidism 523 • Summary 524
- 24 **Medications Used to Treat Gastrointestinal Disorders** 525
 Nausea and Vomiting 525 • Constipation 532 • Irritable Bowel Syndrome 534 • Inflammatory Bowel Disease 540 • Dyspepsia and Disorders Associated With Delayed Gastric Emptying 546 • Eosinophilic Esophagitis 552 • Dysphagia 552 • Rehabilitation Considerations in Medication Review and Patient Education 559 • Summary 559

Appendix: Medications Delivered by Iontophoresis and Phonophoresis 560
