

TABLE OF CONTENTS

Part One • Introduction and Fundamentals

1. Molecular Psychology: A Brief History and Introduction 3
Turhan Canli
2. Complex Trait Genetics and Population Genetics in Psychiatry:
A Review of the Methods 16
Joel Gelernter

Part Two • Applications

3. Neuromodulation of Social Behavior in Insects 27
Stephen J. Simpson and Paul A. Stevenson
4. Social Regulation of Gene Expression in the African Cichlid Fish
Astatotilapia burtoni 52
Karen P. Maruska and Russell D. Fernald
5. Molecular Neurobiology of Social Bonding 79
Catherine E. Barrett and Larry J. Young
6. Gene-by-Environment Interactions in Primates 105
Christina S. Barr
7. Genetic Perspectives on the Neurochemistry of Human
Aggression and Violence 121
Joshua W. Buckholtz and Andreas Meyer-Lindenberg
8. Oxytocin and Vasopressin Gene Variation and the Neural Basis of
Social Behaviors 145
Lars Westberg and Hasse Walum
9. Modeling the Genetics of Social Cognition in the Laboratory 167
*Richard P. Ebstein, Songfa Zhong, Robin Chark, Poh San Lai,
and Soo Hong Chew*
10. Gene-by-Environment Mouse Models for Mood Disorders 210
Maria Razzoli, Alessandro Bartolomucci, and Valeria Carola
11. Neurogenetics of Individual Differences in Brain, Behavior, and
Risk for Psychopathology 223
Luke W. Hyde, Ryan Bogdan, and Ahmad R. Hariri
12. Copy Number Variation in Neuropsychiatric Disorders 243
James J. H. Rucker and Peter McGuffin
13. Molecular Foundations of the Symptoms of Major Depressive Disorder 258
Michael C. Chen and Ian H. Gotlib
14. Is Depression an Infectious Disease? 293
Turhan Canli

15. Consequences of Early-Life Experiences on Cognition and Emotion:
A Role for Nutrition and Epigenetic Mechanisms 311
*Eva F. G. Naninck, Paul J. Lucassen,
and Aniko Korosi*
16. Genetic Tools in the Erasure of Emotional Memory 338
Derya Sargin, Chen Yan, and Sheena A. Josselyn
17. Genetics of Autonomic Nervous System Activity 357
*Eco de Geus, Rene van Lien, Melanie Neijts,
and Gonneke Willemsen*
18. The Genetic Basis of Positive Emotionality 391
Martin Reuter and Christian Montag

Part Three • Science and Society

19. Genetics and Criminal Justice 409
Stephen J. Morse
20. Neurogenethics 426
Turhan Canli

Index 449
