Foreword .....	ix
Preface .....	xiii
<b>Chapter 1 A New System of Human Anatomy .....</b>	<b>1</b>
1.1 Why a New System? .....	1
1.2 For Whom Is This System Useful? .....	4
1.3 What is This System? .....	6
1.4 Why, Therefore, This Book? .....	7
1.5 What is My Hope for My Readers? .....	10
<b>Chapter 2 A Bird's-eye View of the Human Body .....</b>	<b>13</b>
2.1 The Scientific Basis of Anatomy .....	13
2.2 Foundations: From Cell to Embryo .....	28
	<b>vii</b>

2.3	Blueprints: Across the Chordates . . . . .	41
2.4	Functions: External Lifestyles and Internal Milieux . . . . .	52
2.5	Integration and Control, Body and Brain . . . . .	63
2.6	Evolution: Forwards from Deep Time . . . . .	69
<b>Chapter 3</b>	<b>'The Naming of the Parts': Some Wrinkles . . . . .</b>	<b>87</b>
3.1	Terminological Confusions . . . . .	88
3.2	Implications for Names from Developmental Anatomy . . . . .	90
3.3	Conclusion . . . . .	95
<b>Chapter 4</b>	<b>Building the Human Trunk . . . . .</b>	<b>97</b>
4.1	The External Trunk: From Plan to Layout . . . . .	97
4.2	The Internal Trunk: From Shell to Framework . . . . .	118
4.3	The Trunk: Comparative Plans . . . . .	129
<b>Chapter 5</b>	<b>Building Human Limbs . . . . .</b>	<b>139</b>
5.1	The Limbs, from Fetus to Adult . . . . .	139
5.2	Limbs across the Vertebrates . . . . .	157
5.3	Limb Variations . . . . .	170
<b>Chapter 6</b>	<b>Understanding the Human Head . . . . .</b>	<b>193</b>
6.1	Insights from Building the Trunk . . . . .	193
6.2	Now into the Head . . . . .	197
6.3	Head Similarities to the Trunk . . . . .	212
6.4	Head Differences from the Trunk . . . . .	215
6.5	Final Head Anatomy in the Resultant Adult . . . . .	222
6.6	Head Structures and the Nervous System . . . . .	230
6.7	Heads over the Long Haul, from Lampreys to Humans . . . . .	240
<b>Chapter 7</b>	<b>Building the Human Brain . . . . .</b>	<b>247</b>
7.1	The Beginnings of the Central Nervous System . . . . .	247
7.2	From Spinal Cord to Brain: the Initial Brain . . . . .	252
7.3	The Ultimate Brain . . . . .	258
7.4	The Size and Complexity of the Brain . . . . .	264
<b>Chapter 8</b>	<b>Postlude: Possible Human Futures . . . . .</b>	<b>283</b>
	References . . . . .	291
	Index . . . . .	295
