

## CONTENTS

SUMMARY.....	1
Existing Surveillance Efforts, 2	
Emerging Sources of Surveillance Data, 4	
Levels and Uses of Surveillance, 5	
Conclusions and Recommendations, 7	
References, 13	
1 INTRODUCTION .....	14
Surveillance, 15	
Context, 16	
Cardiovascular Disease, 16	
Lung Disease Surveillance, 18	
Study Charge, 19	
Committee Approach, 20	
Report Contents, 20	
References, 22	
2 CARDIOVASCULAR DISEASE .....	25
Epidemiology, 25	
Prevalence and Incidence of Cardiovascular Disease, 25	
Mortality Due to Cardiovascular Disease, 27	
Costs of Cardiovascular Disease, 29	
Prevention and Treatment, 31	
Primary Prevention, 31	
Secondary Prevention, 34	
Treatment and Intervention of Clinically Manifest Disease, 36	
Conclusion, 38	
References, 40	
3 CHRONIC LUNG DISEASE .....	42
Definition, 42	
Epidemiology, 43	
Prevention and Treatment, 44	
Primary Prevention, 44	
Early Detection and Intervention, 45	
Treatment of Diagnosed Disease, 47	
Role of Surveillance, 53	
References, 57	

**PREPUBLICATION COPY-UNCORRECTED PROOFS**

*x* *A NATIONWIDE FRAMEWORK FOR SURVEILLANCE OF CARDIOVASCULAR AND SELECT CHRONIC LUNG DISEASES*

4 HEALTH DISPARITIES.....67  
Why Should Health Disparities Be Measured?, 67  
Evidence of the Need for Ongoing Surveillance of Health Disparities, 69  
    Age and Gender, 69  
    Race and Ethnicity, 70  
    Nativity and Immigration, 71  
    Geography, Residence, and Environment, 73  
    Socioeconomic Factors, 75  
Priorities for Surveillance of Healthcare Disparities, 76  
    Primary Prevention, 76  
    Secondary Prevention, 76  
Conclusion, 78  
References, 80

5 EXISTING SURVEILLANCE DATA SOURCES AND SYSTEMS .....85  
Introduction, 85  
Data Collection Efforts, 86  
    Surveys, 86  
    Registries, 96  
    Cohort Studies, 100  
    Health Services Data, 103  
    Vital Statistics, 108  
International Chronic Disease Surveillance, 109  
Conclusion, 111  
References, 113

6 LEVELS OF SURVEILLANCE AND EMERGING DATA SOURCES .....117  
Levels and Uses of Surveillance, 117  
Emerging Sources of Surveillance Data, 121  
    Emerging Provider-Supported Data Sources for Surveillance: Registries, Electronic Health Records, 122  
    Data from Patients: Potential Use in Surveillance, 127  
Developing Systems, 131  
References, 135

7 USING SURVEILLANCE DATA FOR ACTION .....137  
Building a Framework, 139  
    Setting the Foundation, 140  
    Measures and Indexes, 141  
References, 150

APPENDIXES

CONTENTS APPENDIX A, 151

APPENDIX A, 153

APPENDIX B, 218

**TABLES**

- S-1 Levels and Users of Decision Making, 6
- 2-1 Mortality per 100,000 in 2007 due to Cardiovascular Disease by Gender and Race/Ethnicity, 27
- 2-2 2007 Coronary Heart Disease Death Rates per 100,000 People by Gender and Race/Ethnicity, 28
- 2-3 2006 Stroke Death Rates Per 100,000 People by Gender and Race/Ethnicity, 28
- 3-1 Questions and Conclusions on Screening for Chronic Obstructive Pulmonary Disorder (COPD) from U.S. Preventive Services Task Force, 46
- 6-1 Levels and Users of Decision Making, 119

**FIGURES**

- S-1 Framework for a national surveillance system for cardiovascular and chronic lung diseases, 9
- 4-1 Conceptual model and data sources for Healthy Environments Partnership: Social and physical environmental factors and disparities in cardiovascular risk, 69
- 7-1 Framework for a National Surveillance System for Cardiovascular and Chronic Lung Diseases, 141
- 7-2 Traditional and evolving data sources for surveillance, 144

**BOXES**

- 4-1 Social environment that can initiate and sustain disparities in health, 74

**PREPUBLICATION COPY-UNCORRECTED PROOFS**
